Agenda - Executive Policy Committee – November 30, 2005

REPORTS

Item No. 5 Pacific Junction Park - Land Dedication Reserve
File EP-2

COMMUNITY COMMITTEE RECOMMENDATION:

On November 15, 2005, the Assiniboia Community Committee recommended to the Executive Policy Committee:

1. That funding to assist with the cost of redeveloping the playground at Pacific Junction Park, in the amount of $55,000.00, be allocated from the Assiniboia Land Dedication Reserve.

2. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

DECISION MAKING HISTORY:

COMMUNITY COMMITTEE RECOMMENDATION:

On November 15, 2005, the Assiniboia Community Committee recommended:

1. That funding to assist with the cost of redeveloping the playground at Pacific Junction Park, in the amount of $55,000.00, be allocated from the Assiniboia Land Dedication Reserve.

2. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

and submitted the matter to Executive Policy Committee.

Subject: Pacific Junction

Councilor Clement

My apologies for not sending this earlier. It was posted in the file and inadvertently not forwarded to you as requested by Tom.

The cost to redevelop this playground site includes all removals of existing sand and edging, to be replaced with new concrete curbing and playstone, which are the present standards that we are using due to the arsenic issue with pressure treated timber and over-compaction of sand. Through our generic solicited quotes from the suppliers, the structure has been preliminarily priced with two slides, a bridging apparatus and one overhead play element and is selected for ages 2 to 5 yrs of age.

As you will see from the attached cost summary, we are anticipating a price of around $50,000.00 to $55,000.00 pending the cost of steel and freight in the new year, which the playground suppliers have estimated to the best of their knowledge. Incidentally, last year they had anticipated a price increase due the cost of gas and steel going up, however the rise in the Canadian Dollar balanced that increase out. The uncommitted estimating from the suppliers is due to the volatility in the American manufacturing market for steel.

If you are interested in proceeding with this project, we can prepare the tender documents immediately and have a Bid Opportunity available for the first week in February; when costs will be confirmed and the suppliers are more willing to offers Bids.

Thank-you,
