Subject: South Osborne parkland

Dear city of Winnipeg planners,

I am emailing you to object to the selling of the parkland in the south Osborne region. This is the largest parkland in the area and is of significant value to the members of this community.

I have been a member of this community for almost two decades. I have many memories of this particular park. I love being a member of this community because of the marriage of the urban and natural landscapes.

Selling this park to development will negatively impact the community and deter individuals from joining this community. The pandemic has revitalized the importance of natural spaces in urban areas. I promise you that removal of this park (among others) will make this community less desirable to individuals looking not only live in the area but spend time visiting the local businesses.

Please do not vote to sell this park.

Respectfully,

Kristina Hernandez
