Subject: STATEMENT OF OBJECTION: Donald Richardson Park is not for sale

Dear City Clerk
cc: Sherri Rollins

Winnipeg has about 6% of its total area devoted to green space, while the national average for cities is 9%.

With climate breakdown underway we cannot afford to be the laughing stock of generation Z for reducing our already tiny share of parkland.

We must not fall to developers and/or councillors who think only of the short term.

Thank you.

MARK BLOCK
