Planning, Property and Development Department Report

To the Riel Community Committee

Date: November 15/2005
File: DASZ 48 /05

Subject: A plan of subdivision and a proposed zoning change to By-Law 6400/94 to rezone the subject property from a "C1" Commercial District to an " Rm-5" Multiple Family District to permit construction of a seven story (49 unit) condo project.

Location: 138 Aubert
Legal Description:

Applicant: ND LEA Engineers and Planners

Owner: Festival Du Voyageur Inc.

Recommendation: Approved with Conditions

Site Description

The subject property is approximately .69 acres in overall area and lies at the S.E. corner of Tache Ave. and Rue Aubert. Occupying the site is a parking lot and accessory buildings owned and operated previously by the Festival Du Voyageur.. The land is zoned " C1" Commercial and up until recently the parking area was utilized in conjunction with the banquets and other social activities periodically held in the Festival Hall across the street. To the west are public reserve lands extending to the river and owned by the City of Winnipeg and a privately owned parcel (First Nations Education Trust) zoned "M2 " Industrial. To the immediate north is the adjoining Festival property zoned C2 and further still to the north is a mixture of single and multiple family housing zone " R2" and " RM-4", and a single parcel of land zoned " M2" Industrial owned and operated by Winnipeg Elevator. To the immediate east for a block are generally vacant lands zoned " R2" Residential and a hydro right0of-way with towers. To the south is a mix a business and single family dwellings, all zoned"R2" Residential.

Background

Under previous policy outlined in the North St. Boniface Secondary Plan, a portion of Le Rendezvous site was designated for future commercial use; the remainder to be utilized for residential purposes. In recent public hearings, as part of a Plan review process, local property owners, in conjunction with the Residents Association, have clearly indicated that commercial uses such as banquet facilities and private clubs etc. (in addition to most other types of commercial) are no longer appropriate land uses at the subject location. They are deemed to be major traffic and noise generators and are not compatible with the adjoining residential neighbourhood.. In response to the aforementioned concerns, amendments to the Secondary Plan, are being considered which will permit use of Le Rendezvous lands adjoining Rue Aubert for future low to medium residential development.

Description of the Proposed Development

The proposal calls for the rezoning of the subject property to a medium density housing category. Unlike the accompanying application DASZ 46/05 for the Festival property north of Rue Aubert, no amendment to the St. Boniface Secondary Plan is required in advance of the rezoning being considered and ratified. The subject lands south of Rue Aubert are currently designated for future residential development. Therefore when the application to rezone and subdivide is endorsed by City Council, the land will be cleared and a seven story condo complex is proposed to be constructed on the site. The new structure will have a total of 49 rental suites and a 72 space under ground parkade. No surface parking is envisaged for this site. Access to the underground parking will be via Rue Aubert. As with the accompanying project to the north, preliminary landscaping plans are as yet only rudimentary. However, it is expected that more detail will be available at the public hearing and certainly much more detail will be required for evaluation and approval in advance of building permits being issued.

Analysis

Located at the north east and south east corners of Tache Avenue and Aubert Street, these properties are currently occupied by the former le Rendezvous (north east corner) and surface parking area (south east corner). ND-Lea, on behalf of their client, has initiated application to demolish the former club and develop multiple-family dwellings. The former le Rendezvous property is designated "Commercial" under the current secondary plan and would require secondary plan amendment to "Residential" (and rezoning and other related development approvals) prior to proceeding with the proposed multiple-family development. Development of the parking area at the south east corner can proceed without secondary plan amendment—it is currently designated "Future Residential".
Under the proposed Planning, Property, & Development Department-initiated amendments, both Tache/Aubert properties are to be designated "Higher Density Residential", which can accommodate multiple-family dwellings. Subsequent rezoning and related development approvals provide opportunities for detailed review of the proposed multiple-family development.

The proposed redevelopment of both properties at 768 Tache and 138 Aubert will provide a significant boost to the entire North St. Boniface community. The development will bring in new residents and community members, by providing much needed housing alternatives with the construction of over a hundred new households. In our opinion, the proposed new development will increase existing property values by removing a former commercial use that has run its course at this location and more importantly the new construction should act as a catalyst for further housing redevelopment initiatives in the area. * It should be noted that while the Administration supports the proposed re-designation of the property and the proposed use and suggested densities, we do not support, in principle, the proposed height of 80 feet. That , however should be addressed under accompanying variance DAV 05 163833D.

Recommendation

The Planning and Land Use Division recommend approval for the following reasons:

- The proposed rezoning to a multiple family housing category is in accordance with ongoing initiatives in St. Boniface to to provide a range of housing types throughout the community to meet a growing demand.
- The subject property is, from a land use perspective, better suited to residential development than commercial development.
