Subject: Vacant mulvey land

I am imploring the city to stop moving forward with consideration of the sale of this land for condensed housing.

I'm sure Sheri is the only councillor who has physically stood on this land and can appreciate our concerns. The area from 400 Osborne back to wps river patrol is truly maxed out traffic wise. And there have been many accidents from the underpass to 376 Osborne. I live at 360 Osborne and if coming from the north we often need to go to the gas station and then to the lights to get into our parking lot. With the limited land, recycling trucks, moving vans, contractors have problems with parking and gaining access to our property. Our parking lot often has no visitor pkg if we have contractors on site and nearby streets have periods of no parking which isn't helpful to guests. Homecare is always a problem!

We have put up with this eyesore for many years and would love to see a purpose that Riverview residents can enjoy, ie green space, dog park, etc.
