Subject: Selling of Corydo waterfront parkland

PLEASE, PLEASE, PLEASE DON'T sell parkland for development. We desperately need our outdoor green spaces. Why not rather beautify the land with pollinator gardens, flowering bushes, perennials, benches along the river and walking paths? Edmonton has a very wide and many miles of river space for hiking, Saskatoon has long river wildlands for hiking, BC had phenomenal parks and these are all free. Why cant we do the same? We have a beautiful Assiniboine park, but the zoo, etc, even picnic tables are getting too expensive for families to afford.
