REASON FOR THE REPORT:

Negotiations with the property owner are now complete and approval is required for the terms and conditions of the transaction. Also, Council approval is required in order to dispose of land acquired or used for parks purposes.

HISTORY:

At its meeting held March 5, 1992, the former Board of Commissioners considered a report from the Director of the former Parks and Recreation Department regarding the implementation of the Churchill Parkway. The Board concurred in the recommendations and instructed the Director of the former Land Surveys and Real Estate Department to negotiate the acquisition of the land interests required in order to accommodate a riverbank pathway between The Forks and Churchill Drive Park.

Over the last several years, all of the property interests have been acquired except for two, namely, 320 Osborne and 421 Glasgow Avenue. Negotiations are ongoing with the owner of 320 Osborne Street. Negotiations are now complete with the property owners of 421 Glasgow Avenue.

Particulars of the subject property are as follows:

Location:	421 Glasgow Avenue
Legal Description:	Lots 7-9, Block 2, Plan 319
Certificate of Title:	2061493 and 2061494
Registered Owner:	5011400 Manitoba Ltd. (Lawrie Peterson and Roy Robertson)
Realty Roll No.:	12-015112500
Assessment:	not apportioned
Description:	Vacant land

DISCUSSION:

Glasgow Autobody occupied this property until a fire destroyed it approximately three years ago. The Planning, Property and Development Department were not able to reach a settlement with the property owner prior to the subject property being sold.

The current property owners have advised that the attached Schedule "A" is acceptable and are prepared to complete a land exchange in accordance with the terms and conditions contained therein.

The proposed land exchange involves the sale of two City owned parcels, namely, "Proposed Sale" and "Proposed Closing" as identified on the attached Misc. Plan No. 11715/4. The property owners have advised that they are in the process of developing the subject property into a commercial space and require the extra land in order to accommodate green space as well as parking.

The City-owned land illustrated as “Proposed Sale” on the attached Misc. Plan No. 11715/4 is designated as public park under the jurisdiction of the Planning, Property and Development Department. The only concerns raised when the sale was circulated to the various City departments and standard utilities, was that Manitoba Hydro identified an easement requirement and the Public Works Department requires a lane widening between Glasgow Avenue and Togo Avenue. The Public Works Department also advised that the purchaser should be responsible for the removal of all the improvements within the right-of-way.

The land illustrated as “Proposed Closing” on the attached Misc. Plan No. 11715/4 is a legally opened right-of-way and will have to be declared surplus and closed prior to the proposed sale. A preliminary survey with the affected departments indicated no concerns.

The Planning, Property and Development Department has estimated the market value of the aforesaid two parcels of City-owned land to be $20,000.00.

The Planning, Property and Development Department require a 5 metre easement in the location as noted on Misc. Plan No. 11715/4 to accommodate a linear riverbank parkway. This is one of the last remaining easements required in order to complete the Churchill Parkway. The property owners have indicated that they require $5,000.00, firm, for this easement.

The Public Works Department has identified a requirement for a 1.154 metre lane widening between Glasgow and Togo Avenues. The Planning, Property and Development Department have estimated the market value to be $1,200.00 for the lane widening.

The property owners are agreeable to settling this matter at the proposed purchase prices.

The Planning, Property and Development Department is of the opinion that the proposed purchase prices are fair and reasonable and recommends that the City complete this transaction in accordance with the terms and conditions attached hereto as Schedule “A”.

Any costs incurred in this transaction should be offset by the sale of the City-owned parcels of land. Any surplus funds will be credited to the Land Operating Reserve Account.
