Key Issues:

- Council adopted the Downtown Winnipeg Zoning By-law No. 100/2004 on June 23, 2004.
- Certain errors and omissions have come to light as the by-law has been put to practical use.
- An omnibus amendment is proposed to correct minor errors and corrections in the by-law to make the by-law clearer, allow for more consistent interpretation and make the by-law easier to read.
- The proposed amendments would not prejudice the rights of the public or any person and do not affect the intent of the by-law, and can therefore proceed without a public hearing as per s 276 of The City of Winnipeg Charter.

REASON FOR THE REPORT:
Under the City of Winnipeg Organization By-law No. 7100/97, the Standing Policy Committee on Downtown Development is responsible for planning and land use matters in the downtown including the Downtown Winnipeg Zoning By-law No. 100/2004.

HISTORY:
On June 23, 2004 Council adopted the Downtown Winnipeg Zoning By-law No. 100/2004.

DISCUSSION:
The Planning, Property and Development Department is proposing an omnibus amendment to correct several minor errors and omissions noted during daily use of the by-law since it was adopted last year. The proposed amendments can be grouped into 3 major categories:

1. Typographical errors – words spelled incorrectly, words not underlined when they should have been underlined (to designate a word included in the Definitions section), or vice versa.

2. Incorrect reference or clarification words – errors in cross-referencing sections, or cases where additional word(s) are required to clarify the intent or correct grammar.

3. Minor amendments to clarify intent – minor items that were missed or overlooked or corrections required improving flexibility of the by-law and clarifying intent.

A detailed list of the proposed amendments is attached in the draft by-law in Appendix A.

Under Section 276 of The City of Winnipeg Charter, the City has the authority to pass by-laws to correct errors and omissions that do not prejudice the rights of any person, without giving notice, holding a hearing or receiving a report from a hearing body. Therefore, the department recommends that the Standing Policy Committee on Downtown Development recommend the proposed text amendment to Council for approval.

Financial Impact Statement Date: November 14, 2005

COMMENTS:

As the proposed amendments only recommend changes to the text of the by-law, there is no financial impact associated with the contents of the proposal.
