Subject: To amend By-Law No. 6400/94 by rezoning the land shown below from a “C1” Commercial District to a “C2” Commercial District to allow the maintenance and expansion of a non-accessory parking area.

Owner: University of Winnipeg

Recommendation: *Approved*

Site Description

The subject site is located on the east side of Young Street, north of Ellice Avenue. The site has been prepared for use as a parking lot. The property is currently zoned "C1" Commercial District. It's located north of the University of Winnipeg's new Ellice Avenue facility, which was established via conditional use application in June, 2005 (DCU 05-134035/C). Surrounding land uses include low-density residential dwellings to the west, north, and east ("R2-T") and commercial properties fronting Ellice Avenue to the south ("C1.5").

Figure 1: Subject Site (aerial photo flown 2002)

Background

This property has been the subject of several development proposals, dating back to 1987. Each applicant has proposed one form of parking facility or another.

Description of the Proposed Development

The applicant proposes to establish a surface parking lot, in conjunction with the recently established University of Winnipeg facility located to the immediate south of the subject site. The proposed parking lot expands an existing parking lot to a portion of the property previously occupied by a converted dwelling (business office).

Analysis

This portion of Young Street is designated "Neighbourhood" under *Plan Winnipeg*. This designation accommodates residential, commercial, and institutional uses. *Plan Winnipeg* encourages the protection and enhancement of predominantly residential areas such as the Spence neighbourhood. It also supports character commercial avenues such as Ellice, that provide for a fine-grained mix of land uses and functions.

The key to balancing the functional requirements of a valued community institution (in this case, the University of Winnipeg) with the integrity of a residential enclave (such as the Spence neighbourhood) is to strive for compatibility—through the scale, variety, and design of specific developments. In and of itself, the proposed surface parking lot does not demonstrate a vibrant mix of uses. As a component of a larger package, provided care and attention are exercised in its scale and design, a parking lot at this location can be integrated into the neighbourhood at this location without eroding its integrity or diminishing residents' investments.

The University of Winnipeg has recently initiated a broad "Campus and Community Development Plan" process. Although it is in an early stage, the university's commitment to engaging the community in the plan's creation appears genuine. A meeting between representatives of the university and the Spence Neighbourhood Association is scheduled for the week of October 24, 2005—to discuss the 433 Young Street proposal and, presumably, to elaborate on the campus and community development plan process.

Planning, Property, & Development Department is prepared to recommend approval of the rezoning application to "C2", subject to strict limitations on use of the site by way of a zoning agreement. The department will also recommend a plan approval clause in order to facilitate discussions between the university, the neighbourhood association, and the district planner towards a site plan that capably integrates the proposed parking lot into the Spence neighbourhood. In approving the rezoning application, a redundant zoning agreement (DAZ 207/94) caveat should be removed from the title.

Recommendation

The Planning and Land Use Division recommends approval for the following reasons:

- Subject to the conditions of approval, the proposed parking lot can be integrated into this vibrant neighbourhood.

Recommended Conditions of Approval

I. That The Winnipeg Zoning By-law 6400/94 be amended by rezoning the subject land as shown on Schedule "A", for file DAZ 229/05, attached hereto and dated October 24, 2005, to a "C2" Commercial District, subject to the following:

A. That the applicant enter into a zoning agreement with the City of Winnipeg pursuant to Subsection 240(1) of The City of Winnipeg Charter, to provide for the following:

II. That Caveat No. 1262353 as it affects the subject lands be fully discharged.

III. That a ten (10) per cent dedication be made by a payment of a sum of money to the City in lieu of the requirement for land dedication based on the increase in the market value of the land.

V. That the City Solicitor/Manager of Legal Services be requested to prepare the necessary rezoning by-law and forward same to Council for all three (3) readings.
