REPORT SUMMARY

Key Issues:

- The applicant entered into an agreement with the City of Winnipeg in 2001 allowing the use of portion of the street proposed to be closed as a parking area. The terms of the agreement provide an option for the applicant to purchase the street. The applicant is exercising this option. The street must be closed before it may be sold.

Implications of the Recommendation(s):

General implications:

X	**None**
	For the organization overall and/or for other departments
	For the community and/or organizations external to the City of Winnipeg
	Involves a multi-year contract

REASON FOR THE REPORT:

All street and lane closings within the boundaries of the Downtown Winnipeg area, as defined by By-Law 100/2004, require the consideration of the Standing Policy Committee on Downtown Development.

HISTORY:

In 2001, the City of Winnipeg entered into a Leave and License agreement with 2116669 Manitoba Corporation to allow the use of the land shown as "Proposed Closing" on the attached Misc. Plan No. 12677 as a parking area. This area was created to compensate 2116669 Manitoba Corporation for a parking area lost through the dedication of some of its land as Waterfront Drive. The terms of the Leave and License agreement include an option for the Corporation to purchase the parking lot area. 2116669 Manitoba Corporation has decided to exercise that option.

DISCUSSION:

Administrative Approval

All affected City departments and public utilities have considered the proposal. There are no administrative objections to the closing.

Easements

There is an existing fire hydrant, catch basin and associated catch basin lead located within the proposed closing. The Water and Waste Department will allow the catch basin and lead to be relocated or abandoned at the owner's expense. The fire hydrant cannot be abandoned. The hydrant would have to be moved to a location that would still ensure adequate fire protection. It would be the applicant's responsibility to retain the services of a consulting engineer to determine the costs for relocation and/or abandonment. Any relocation will be subject to the approval of the Water and Waste Department. If the facilities are left in place an easement will be required for their maintenance.

Manitoba Hydro will also require an easement for the maintenance of its facilities in the area.

No permanent structures will be allowed in either easement area.

Transfer of Jurisdiction Over Public Rights-of-Way

The street must be legally closed before it may be transferred to the applicant. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right-of-way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.

Financial Impact Statement **Date:** October 4, 2005

COMMENTS:

All costs associated with this project will be the responsibility of the applicant. There are no financial implications for the City of Winnipeg.
