Subject: To amend Clause 5 of the zoning agreement which states that "any building on the land shall have a north side yard of not less than 8 feet" to read "any building on the land shall have a north side yard of not less than 6.45 feet".

Location: 434 St. Anne's Road
Legal Description: Lot 4, Plan 6045

Applicant: Luc Dupuis
Owner: Luc Dupuis & Richard Mailhot

Recommendation: (Approved with Conditions)

Site Description

The subject property is situated on the west side of St. Anne's Road midway between Sadler Ave. and Oustic Ave. E. There is a metal clad one story commercial building on the site with parking at the front . The property is zoned C2 Commercial. The adjoining property to the south is zoned C1 Commercial and occupied with a 7 Eleven outlet. To the immediate north is a zoned C1 property. And to the rear across an existing lane right-of-way is a residential housing area zoned R1-5.

Description of the Proposed Development

When the subject property was zoned commercial fifteen years ago, concerns were raised by the owner of the property at 426 St. Anne's to the north about the proximity of a new commercial building to his south property line. It was stipulated in the zoning agreement at that time that any building constructed on the property at 434 St. Anne's had to provide a north side yard of not less than 8 feet. The applicant , at that time agreed to that condition. However, it was determined much later, long after the building was constructed, that the NW corner of the structure was in fact only 6.45 feet from the north property line. To legitimize the existing situation, the applicant is applying for an amendment to the old agreement which would permit the existing encroachment into the north side yard.

Analysis

In this particular situation, it is our view, that the builders of the subject building acted in good faith when they originally constructed the structure at 434 St. Anne's Road. The owner may or may not have realized that there was a partial encroachment; however, in the final analysis, the encroaching part of the wall is deemed to be a minor breach of the original agreement and has, in all likelihood, not adversely affected the adjacent property owner. Furthermore, it should be noted that under the current By –Law requirements for commercial interior side yards no north side yard at all would be required. It does however have to be rectified. The Planning and Land Use Division , is of the opinion, that Clause 5 of the original agreement can and should be amended to allow for a 6.45 foot minimum north side yard instead of the original specifies 8 feet minimum.

Recommendation

The Planning and Land Use Division recommends approval for the following reason:

- It is the opinion of the Planning and Land Use Division that most of the north side wall of the existing commercial building complies with the original setback requirement under the original agreement. The one corner of the building that has encroached into the north side yard over the intervening years has not , in our view, adversely affected the adjoining property owner.

Recommended Conditions of Approval

I. That the Zoning Agreement Caveat No. 1568928 under file no. DAZ 211/92, dated July 8/92, (By-Law # 5986), be amended *by revising Clause 5 to read " any building built on the land shall have a north side yard of not less than 6.45 feet".*

II. That the City Solicitor/Manager of Legal Services be requested to prepare the necessary Amending Agreement to Zoning Agreement DAZ 211/92 (By-Law # 5986), dated July 8/92, as approved in aforesaid Clause I.

III. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

IV. That the City Solicitor/Manager of Legal Services be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.
