STANDING POLICY COMMITTEE ON

PROTECTION AND COMMUNITY SERVICES

QUESTION PERIOD

Minute No. 223
In reference to the "Winnipeg Police Service - Four District Model" adopted by Council on July 23, 2003, Council Wyatt noted that there was a serious cost overrun and questioned if the four district model should proceed or if consideration should be given to more cost effective and community based options.

Councillor Steeves advised that components of the four district model were definitely being considered to be ongoing but agreed to provide an update from the Winnipeg Police Service.

Councillor Wyatt further questioned what the cost overruns were to date and when construction would begin to which Councillor Steeves agreed to take the question under advisement.

Councillor Wyatt inquired if the option of continuing with the six district model would be considered, noting that renovations of existing buildings would be far more cost effective in light of the new cost overruns. Councillor Steeves agreed to obtain the information and report back.
