SUBJECT: Application – Community Incentive Grant Program

Dear Donna,

Enclosed is our application in support of the Emergency Relief Capital Campaign to renovate and expand the Emergency Department at Seven Oaks General Hospital.

Both the Foundation Board of Directors and the Hospital Board of Trustees are dedicated to the success of this project. The Winnipeg Regional Health Authority ranked the renovations of SOGH's Emergency Room as ***the #1 priority*** for the region. The challenges are clear: the Emergency Department must increase capacity, patient flow, accessibility, safety and security, patient confidentiality, and visitor comfort.

I understand that this request will be reviewed in March. In the meantime, should you have any questions or require further information, please do not hesitate to contact me at (204) 632-3371.

Thank you for your help with this important project.

Sincerely,

Maria Marrone
Executive Director

Seven Oaks General Hospital – Overview

Seven Oaks General Hospital is a 326-bed acute-care hospital noted for its patient-centred care and team approach to healing. As Winnipeg's newest hospital, Seven Oaks was the first to restructure along program lines, a concept that aligns care with the needs of patients and families, rather than along professional disciplines. Since the reorganization, other Winnipeg hospitals have followed suit. The programs are Medicine, Surgery, Rehabilitation/Geriatrics, Critical Care (which includes the Emergency Department) and Mental Health. The Dialysis and Oncology Clinics have recently opened to serve growing numbers of patients suffering from cancer or end-stage renal disease. The Kildonan Medical Centre is the only Family Practice teaching facility at a Winnipeg Community hospital. The first of its kind in Canada, the Wellness Institute put Seven Oaks General Hospital on the world map. It combines world-class exercise facilities, therapies, sports, medicine, education and post-treatment therapies in cardiac rehabilitation, cancer, arthritis, and weight management, diabetes and joint replacement. The Institute also operates a highly successful smoking cessation program and is nationally recognized for asthma education.

Project Description:

When the Seven Oaks General Hospital's Emergency Department opened in 1980, no one knew that by 2003 it would see more visits per year than that of any other community hospital in Manitoba. Originally designed to care for 50 patients per day, ER staff must now treat 70 to 90+ patients daily, our dedicated staff currently provide quality care despite increasing demands for space, equipment and time. The Hospital's catchment area has expanded, and a recent boom in residential development has increased the population of this area to 58,000. Winnipeg's North End is more densely populated than ever before, and the trend is expected to continue. More importantly, the average age of the area's population is rising.

Seven Oaks General Hospital is committed to providing quality emergency care in an environment that is comfortable, safe, organized and efficient. Renovations to the ER will expand its total area by 50 per cent, to 7,800 square feet. In addition, renovations will result in:

- *Larger, modern ambulance bays,*
- *Centralized triage,*
- *Confidential consultation,*
- *Larger, fully equipped treatment rooms,*
- *Secure medical cabinets,*
- *Safer, more comfortable waiting room, and*
- *Computerization of patient records and charts.*

Funding

A capital Budget has been established at $4,758,273. The Foundation has committed to raise $2,000,000 towards this project.

We are seeking a contribution of $150,000.
