Delegation information
Committee: Executive Policy Committee
Committee - council: N/A
Committee - other: N/A
Agenda item (number and title): Water 5

Service inquiry: Register as a Delegation, Submit Comments in writing
Participation preference: Via Zoom
Comments in writing: I support the collection and disposal of methane wherever practical. It is well known that methane in air is a powerful GHG.
There is a huge error in the report, when it quotes the 2022 Federal report.
Mega landfills like Brady produce a tiny fraction of Canada's methane production, not 28%. Ottawa has exaggerated their importance by a factor of about 100. During a warm, moist summer, Canada's undeveloped land increase their GHG production by more than everything Canadians do.
