Comments in writing: I note that this is a lot of tax money being disbursed for what most of us pay privately: gardening and planting. I note also that the city has spent a lot of money on previous tree campaigns. I believe that the city has no idea where previous trees were previously planted, or how happy those little trees are.
Please require every recipient of tree-planting $ to report exactly where they placed new trees, and please ask your staff to keep records of those locations.
This program should result in more than money oging out the door. It should result in more healthy adult trees.
