Comments in writing: Like many Winnipeggers, my family grew up not having much money. To make the money my Mom made last, we were very careful about not wasting water and everything else. We must all try really hard to not waste water. If you make water free, you let some folks waste it. Lower water costs means more waste.
If you worry about the cost of living in Winnipeg, don't force us to use new pointless services, like composting. I already garden and compost. I do not need you to collect stuff from my curb.
