Comments in writing: I have friends who live near here. They are not in favor of these planters. Since we are hoping to actually use the parkland funds for their intended purpose, just blocks from this median, I ask that you follow your own rules and NOT fund this waste of money.
Planters are not parkland. They are also dangerous. If a truck hits one, it becomes an unpredictable, wobbly missile, deadly to anyone on foot nearby. Medians should be smooth curbs, walls or steel rails. Round bollards can kill those in cars too. Princess Diana for example.
