Comments in writing: Hi to whom it may concern,
One of the pools you are trying to close is Eldon Ross Swimming Pool. I swam at that pool since I was a kid, that was the pool I learned how to swim in. Once I got a bit older me & my dad would see who could swim under water longest. I went there almost everyday after school, every weekend I was there. It was one of my favorite things to do. Now in that area there is barely anything for the kids. They took away the ice rink & the rec centre. They changed alot of the park(got rid of the tire swings & the wood monkey bars) Soon there is going to be nothing for these kids to do. We need to keep places open like swimming pools, so kids don't turn to be bad because they have nothing else to do. Please listen to everyone who wants to keep this swimming pool open! It means so much to the community. File:
