To : Winnipeg City Council
Re: Motion #1 Retrofitting Investment

I write on behalf of the Interfaith Coalition for The Community Energy Investment Roadmap (CEIR). Our group includes Christians, Jews and Buddhists.

We write in support of the motion to consider the social benefit of retrofitting Winnipeg's public buildings. Every building that is retrofitted will save the City money and cut back on our carbon emissions. Retrofitting City buildings is just one small step on the road to sustainability. It is vital that we take that step. We need to begin the process now so that future generations will be able to thrive . It is our hope and our prayer that City Council will bring a sustainability lens to all of its policies and actions.

Thank you for your consideration of this matter.

Yours truly,

Lynda Trono
