While I am in general agreement with most of this report, there are elements of this that should concern you as members of Council.
With geographical changes and the cautions noted in the report, it would be prudent to increase the mill-rate supported amount by about $30million. If anyone does not see this, ask for the numbers.
In paragraph B, the report warns that PE income will depend on several factors, including legislative. Keeping in mind that the first actual safety improvement report (required by law) has not been published, and that actual data suggest that PE has had a net-negative effect, it is not prudent to include any PE income in your budget.

I consent to being contacted to participate in potential public engagement related to this matter.
Yes
