Subject: Cote St/ Cusson St - Lane Oiling

Councillor Magnifico,

Further to your voice mail request to Chuck Holatko regarding the oiling of the gravel lane in the area bounded by Cusson St/ Cote St/ Archibald/ Evans Ave, we have estimated the cost to oil this lane at $13,000.

As you are aware the oiling of gravel lanes falls under the local improvement program.

As mentioned in your voicemail, if you are considering funding this improvement outside of the normal local improvement process be advised Council approval is required. The Administration does not have the authority to bypass the local improvement process.

To proceed with this lane oiling that utilizes an alternate funding source the following steps are required under the existing policy;

1. Community Committee can make a recommendation to the Standing Policy Committee on Infrastructure and Public Works that this local improvement oiling proceed outside of the local improvement process and identify the funding source.
2. Upon approval by the Standing Policy Committee, EPC, and Council the oiling can be executed by the Streets Maintenance Division.

The Streets Maintenance Division anticipate starting their street oiling program in mid July, we could include this location with the annual program.

If the Community Committee recommendation is made at the May 30TH meeting, under the normal approval process Council approval could be achieved by the June 28th meeting.
