2. The proposed opening must have been submitted to all affected City Departments and public utilities with no objections having been received.
3. Any conditions regarding engineering aspects (i.e. relocation of facilities) must have been mutually agreed upon.
4. The affected property owner(s) must have agreed to the terms and conditions of the acquisition of the land required for the proposed opening.
5. The terms and conditions of any agreements concerning the proposed opening and acquisition must have been approved by the Director of the department that requested the opening and either the Standing Committee on Fiscal Issues, the Standing Committee on Property and Development, or the Director of the Planning, Property and Development Department, as is appropriate.
