REPORT

RECOMMENDATION(S):

1. That Council be requested to approve the (attached) MEMORANDUM OF UNDERSTANDING IN CONSIDERATION OF THE DEVELOPMENT OF AFFORDABLE HOUSING IN WINNIPEG for the creation of affordable housing programs in Winnipeg.

2. That Council allocate a total of $17.5 million to the implementation and delivery of housing programs under the Affordable Housing Initiative, inclusive of program funding, in-kind contributions and policy coordination.

3. That, in addition to the remaining $2.7 million required to fully implement the $7 million Winnipeg Housing Initiative, Council allocate: i) additional funds of $8.747 million to the Housing Investment Reserve Fund; and, ii) surplus City owned land assessed at $3.2 million to new affordable housing programs to be delivered cooperatively with the Provincial Government over the next five (5) years.

4. That the Director of Planning Property and Development be authorized to implement existing housing programs where applicable, and develop new complementary affordable housing programs for approval by the Housing Steering Committee.

5. That the proper officers of the City be authorized to do all things necessary to implement the foregoing recommendations.

REASON FOR THE REPORT:

- The City of Winnipeg has delivered tri-level housing improvement programs through the Winnipeg Housing and Homelessness Initiative. These community based programs, together with the City's staff support programs, have enhanced neighbourhood stability and confidence, increased property assessments, provided affordable accommodation and generally improved the overall health of Winnipeg.

- The City's Housing Initiative will expire in 2004, unless extended either independently or in cooperation with other levels of government through the Affordable Housing Initiative (AHI).

- Approval of the MOU will assure Winnipeg's participation and involvement in housing renewal initiatives and further enhance the health and vitality of the City.

HISTORY:

- On November 30, 2001, Federal, Provincial and Territorial Ministers responsible for Housing agreed on a framework to increase the supply of affordable housing across Canada. This framework establishes an approach that guides the development of bilateral agreements between Provinces/Territories and the Canada Mortgage and Housing Corporation (CMHC).

- Under the federal/provincial Affordable Housing Initiative, housing units created must rent at or below the median market and not create new long-term subsidy streams.

- The Government of Canada (CMHC) and the Province of Manitoba (MHRC) have negotiated a Bilateral Agreement for an Affordable Housing Initiative in Manitoba that involves matching commitments of $26 million each, for a total province wide commitment of $52 million. A Federal/Provincial Bilateral Agreement will likely be executed and announced before September 30, 2002.

- It is estimated that Winnipeg will receive approximately $35 to $40 million in Federal and Provincial funds under the Affordable Housing Initiative.

- Priorities for the Provincial Affordable Housing Initiative in Winnipeg include:
    - Creating a new affordable rental supply; increasing homeownership; ensuring that low-income families have access to a new supply through income support options such as rent supplements and down payment assistance; and renovating the existing supply, particularly within the Inner City.

- In Winnipeg, these proposed new housing initiatives will be co-ordinated through the WHHI, and will complement existing housing initiatives and programs.

DISCUSSION:

In October of 1999, City Council endorsed the Winnipeg Housing Policy to address the serious decline in housing conditions in inner city neighbourhoods. The City provided funding to support housing initiatives through the establishment of a $7 million Housing Investment Reserve Fund.

In May 2000, a three-year Memorandum of Understanding (MOU) was approved between Canada, Manitoba and City of Winnipeg establishing a tripartite partnership to address homelessness and declining housing stock through revitalization of older neighbourhoods.

The tripartite partnership opened a Single Window Office on May 15, 2000, as the Winnipeg Housing and Homelessness Initiative (WHHI). The City's funding assistance is being delivered through this single window office.

As a result of the City's ongoing partnership with the Federal and Provincial governments through the WHHI, discussions occurred regarding the City's participation in the Federal/Provincial Affordable Housing Initiative.

City staff were requested to meet with provincial representatives in order to develop a Memorandum of Understanding (MOU) for a joint provincial/municipal Affordable Housing Initiative.

The City/Provincial MOU on Affordable Housing:

City and Provincial staff, following the terms and framework of the Federal/Provincial (CMHC/MHRC) Bilateral Agreement on the Affordable Housing Initiative, developed the MOU IN CONSIDERATION OF THE DEVELOPMENT OF AFFORDABLE HOUSING IN WINNIPEG (attached). The significant components of the MOU are as follows:

- The MOU on Affordable Housing will focus on housing which is modest in terms of floor area and amenities, based on household needs and community norms, and is priced at or below average market housing rents or prices for comparable housing in a community;
- Programs developed by the City and the Province will contribute to the development of a new affordable rental housing supply or a new affordable homeownership supply, to the rehabilitation/repair of the existing housing supply, and/or to the affordability of any newly constructed or rehabilitated housing supply, pursuant to the AHI Bilateral Agreement;
- There is recognition of "in kind" contributions by the City which can include land, costs incurred to prepare land for development, applicable grants provided under the Winnipeg Housing Initiative, tax credits, tax increment financing, services and delivery of the initiative, or a combination of cash and in-kind contributions, and policy coordination;
- Provision exists in the MOU for "Mixed Affordable Housing Projects" in order to assist in the development of projects planned in the Downtown;
- Provision is made for Winnipeg's co-operation in strategic planning for future land development in and adjacent to Winnipeg, including but not limited to MHRC parcels situated in Fort Garry, St. Vital and North Winnipeg.
- Affordable Housing Programs may initially focus on specific areas of the City, including the Major Improvement Areas and Rehabilitation Neighbourhoods identified by the City of Winnipeg, but the focus of housing initiatives may expand to include other/all areas of Winnipeg;
- The proposed housing initiative will be co-ordinated through the WHHI, and will complement existing housing initiatives and programs; and
- Winnipeg's Funding, including contributions in cash and in kind, pursuant to City Council's approval, will be equal to approximately one-third of the total of CMHC Funding, MHRC Funding and Winnipeg's Funding contributed overall for Programs undertaken in the City of Winnipeg, over the duration of the AHI Bilateral Agreement.

Contributions:

As previously noted, it is estimated that Winnipeg will receive approximately $35 to $40 million in Federal and Provincial funds under the Affordable Housing Initiative. The City of Winnipeg's contribution, pursuant to the proposed MOU, would be equal to approximately one-third, to a maximum of $17.5 million, of the total of CMHC Funding, MHRC Funding and Winnipeg's Funding contributed overall for Programs undertaken in the City of Winnipeg, over the duration of the AHI Bilateral Agreement.

The federal/provincial Bilateral Agreement recognizes, as matching contributions, those commitments made by the Provincial government and third parties for eligible programs, retroactive to January 1, 2001. In this context, the City's current and projected eligible contributions for land, WHHI grants, and administration are approximately $8.753 million. Consequently, additional direct funding in an amount of $8.747 million would be required by the City to fulfill it's funding commitments under the MOU.

Implementation of the Winnipeg Housing Policy and the Winnipeg Housing Initiative through the WHHI has significantly improved the physical, social and economic environment in the City's Housing Improvement Zones.

Economic Implications:

Total public and private investments of $16.3 million have been made in housing development projects in Winnipeg through the WHHI to date. This translates into a leveraging ratio of 10.2 for the City of Winnipeg, i.e. for every $1.00 of City funding committed, an additional $10.20 has been invested by other public/private sources.

An analysis of property assessment data in Spence and West Broadway has demonstrated that assessments on new infill and renovated homes have increased considerably as a result of the tri-level WHHI investments.

These enhanced assessments have increased municipal tax revenue for the City, which is fully recovered by the City within a period of 30 years. Because the lifespan of new and renovated homes extends well beyond 25 years, the City's housing renewal investments made through the WHHI partnership are ultimately returned to the City through municipal tax revenue. These housing investment funds have contributed not only to the renewal of homes and confidence in Housing Improvement Zones, but also to the City long-term tax base.

Approval of the City/Provincial MOU on the Affordable Housing Initiative would ensure that Winnipeg's participation and involvement in housing renewal initiatives continues and further enhance the health and vitality of the City.

Financial Implications:

The total additional costs to the City of implementing all of this report's recommendations are as stated in Recommendation 3., and are shown below;

Additional City funding required over and above its defined eligible contributions to the affordable housing initiative	$8.747 million
Additional funding needed to complete the implementation of the $7 million Winnipeg Housing Initiative approved in principle by Council	$2.7 million
Market value of surplus City-owned land to be contributed to the affordable housing program **(note)**	$3.2 million
Total	**$14.647 million**

Note The $3.2 million is the combined assessed value of City-owned residential parcels considered immediately useable plus a number of similar lots expected to be received in tax sale in the near future. For the purposes of this analysis, it is assumed that the City's combined carrying costs that will have to be written off when the properties are transferred to the Province are roughly equal to the assessed values.
