Recommendation(s):

8. That the City of Winnipeg approve The Winnipeg Private Refugee Sponsorship Assurance Program according to the principles outlined in the Draft Agreement (attached) and in EPC Report G-8 (Vol. 4), 2002/07/15.
9. That an additional appropriation be approved for the 2002 Adopted Tax Supported Budget to provide a grant to the Manitoba Refugee Sponsors (MRS) or its agent for the purpose of establishing an assurance fund of $250,000 and $7,500 related to administrative support.
10. That ongoing funding of $30,000 for 2003 and beyond, for a maximum total of five years, related to administrative support, be referred to the administration for recommendation and review during deliberation on the 2003 current estimates process.
11. That an Advisory Board be established to monitor the operation of the Agreement and of the Program for measuring success, and to provide oversight to this sponsorship guarantor project.
12. That the Mayor be authorized to appoint the City's representative to the Advisory Board.
13. That the project be reviewed after twelve months of activity.
14. That the Executive Policy Committee Secretariat work with Proper Officers of the City to do all things necessary to implement the following.

Reason for the report:

Winnipeg City Council approved the Homegrown Economic Development Strategy (HEDS) in June 2001. The HEDS identified "closing the skills gap and enhancing immigration" as one of its three priority policy foundations and issues and stressed that the City must "play a leadership role in supporting enhanced immigration sponsorship programs".

The Manitoba Interfaith Immigration Council (MIIC) has requested the City of Winnipeg to consider acting as a guarantor in support of "family linked" (individuals with relatives or friends in Manitoba) refugee sponsorship.

History:

Numerous individuals, including a provincial government representative and a respected refugee advocate, have characterized the need for family linked sponsorships as "huge". It is predicted that Manitoba will begin to lose population at an accelerating rate, with associated difficulties. Winnipeg, with two-thirds of the

provincial population, will share proportionately in this slide and predicament. At this point the City of Winnipeg plays no role in an issue that is fundamental to its future" (July 2001).

At its July 17, 2002, meeting EPC:

- Resolved [Motion File G-8 (Vol. 6), 2002/07/17]:
  - To "mandate the Mayor, supported by the [EPC] Secretariat, to enter into negotiations with relevant parties to carry out a pilot project in support of increasing immigration to Winnipeg by supporting family linked refugee sponsorship."
  - To "mandate the Mayor, supported by the [EPC] Secretariat, to enter into negotiations with the Governments of Manitoba and Canada in support of developing a broad tri-level agreement towards building innovative immigration partnerships in favour of growing Winnipeg's population."
  - That "the Mayor submit any draft agreements to [EPC] and City Council for approval."
- Concurred [Report G-8 (Vol. 4), 2002/07/15]:
  - That "the City … enter into negotiations" as above.
  - That "a negotiated pilot project be brought back to EPC and Council for approval."

Discussion:

The MIIC presented a relatively simple and potentially low-risk, but effective, high profile opportunity for the City of Winnipeg. The proposal suggests partnerships between refugee sponsoring groups and the City of Winnipeg be formed "to substantially increase the number of refugee family members settling in Winnipeg". These groups would "work with local community and family members to prioritise refugees with appropriate skills, language abilities and family supports. [Sponsoring groups], constituent groups and Winnipeg family members would take responsibility for providing for the needs of the family members when they arrive and helping them to settle successfully."

The City of Winnipeg's role would be to provide funds to ensure that there would be no dependency on the government of Canada for the first year of the sponsorships, and to provide for settlement costs where resources are not available.

The basic proposal is that the City of Winnipeg approve a grant of $250,000, for the fund. The nature or intent of the fund is to guarantee, or "underwrite", the sponsorship of refugees by sponsor groups. It can therefore be expected that the majority of the funds will roll over from year to year. A minimum of draw down may be required to cover settlement costs, in the unlikely event of breakdowns in sponsorships.

EPCS staff have met and entered into negotiations with representatives of relevant parties, including:

- Manitoba Labour and Immigration

- Citizenship and Immigration Canada (CIC)
- Manitoba Refugee Sponsors
- Manitoba Interfaith Immigration Council
- Winnipeg Foundation

The parties' negotiations have resulted in a Draft Agreement (attached).

A tri-level agreement has not yet been concluded; however, negotiations continue in this regard. In reference to the Program, federal Minister Coderre, in his August 15, 2002, letter to the Mayor suggests the Program "represents an innovative partnership… and has the potential to contribute to Winnipeg's growth [and] by accepting refugees who do not have family in Winnipeg but are interested in making Winnipeg their home, you will be… expanding the base for future immigrant and refugee sponsorships." The latter point is in reference to the Program and Draft Agreement including, at CIC's request, "community-linked" (i.e., not just "family-linked") sponsorships. This allows for identification by CIC missions abroad of potential sponsored persons – so-called "unnamed" refugees that CIC has requested by included in the Program.

In her August 14 letter to the Mayor, provincial Minister Barrett suggests the program is "an important tool to support the humanitarian immigration stream that has been so successful due to local leadership and dedication."

An Advisory Board should be established, comprising representatives from the City of Winnipeg, Province of Manitoba, Government of Canada, and MRS. The Board would be responsible for oversight and/or implementation of the intent of the Program. It could serve a number of longer-term purposes, including laying the foundation for further business and government collaboration.
