I own and live in a condo at . I walk, bike or drive on the Crescent daily and witness near misses regularly. Delaying a safe solution for Wellington Crescent by canceling the pilot project is unacceptable.

Besides the immediate safety concerns that need to be addressed, there are also aspects of the design that should be live-tested before something permanent is implemented. For example, my building does not have a loading zone on the property. Vehicles have to stop on the street out front to unload. How will that work with a permanent bike lane in front of our building?

I urge Council to proceed with the pilot so that this project can be tested in the community who will directly feel the impacts if it is not done right.
