We, the undersigned residents are vehemently opposed to the Proposed Plan Winnipeg Amendment By-Law No. 130/2004, which will divert Plessis Road truck traffic through the open field between Mission Gardens 2 & 3, as it:

A. Disregards the safety of children who cross the field daily en route to Bernie Wolfe school;
B. Disregards the environmental impact on this "Bradley tall grass Prairie";
C. Disregards the impact on property values in this expanding community; and
D. Further reduces viable residential areas for families in the Transcona / Mission Gardens area.

We hereby strongly urge the Executive Policy committee to cease all plans to implement said By-Law.
