ADMINISTRATIVE REPORT

RE: AGREEMENT FOR FIRE PROTECTION SERVICES FOR H2ICE BUS STORED AT 2535 INKSTER BOULEVARD IN THE R.M. OF ROSSER

FOR SUBMISSION TO: EXECUTIVE POLICY COMMITTEE

ORIGINAL REPORT SIGNED BY: Wes Shoemaker
Fire & Paramedic Chief

REPORT DATE: December 7, 2004

RECOMMENDATION(S):

1. That Council amend its previous policy to allow the Fire Paramedic Service to provide fire protection services for the Canadian Transportation Fuel Cell Alliance facility located in the Rural Municipality of Rosser during the cold weather operation of the H2ICE Bus.
2. That the Chief Administrative Officer be authorized to approve the terms and conditions of the fire protection services agreement with the Canadian Transportation Fuel Cell Alliance.
3. That the Proper Officers of the City be authorized to do all things necessary to effect the intent of the foregoing.

REPORT SUMMARY:

Key Issues:

On March 22, 2000 Council directed the Winnipeg Fire Paramedic Service (WFPS) not to provide service to communities outside City of Winnipeg boundaries.

The City of Winnipeg Transit Department has entered into an agreement with Canadian Transportation Fuel Cell Alliance for the sublease and operation of the H2ICE Bus for a cold weather demonstration in Winnipeg for the period January 3, 2005 to February 28, 2005. The bus will be stored at property located at 2535 Inkster Boulevard in the R.M. of Rosser

Canadian Transportation Fuel Cell Alliance has requested a formal agreement for fire protection services for the period December 15, 2004 to March 14, 2005.

Due to the nature of the bus that will be stored at 2535 Inkster Boulevard and its proximity to the City of Winnipeg boundary, the Winnipeg Fire Paramedic Service resources would be dispatched to mitigate a major incident related to that property. This agreement would allow the Fire Paramedic Service to be compensated for the provision of standby fire protection.

The department's Fire Prevention Branch has reviewed the building and determined that it meets the applicable codes that would be expected if it were inside city limits.

Implications of the Recommendation(s):

General Implications:

X None

☐ For the organization overall and/or for other departments

☐ For the community and/or organizations external to the City

☐ Involves a multi-year contract

Comment(s):

Financial Implications:

X Within approved current and/or capital budget

☐ Current and/or capital budget adjustment required
Comment(s): There would be no appreciable increase in departmental costs to provide this service, as FPS estimates that this service can be provided with existing resources. Additional revenue would be received in the amount of the negotiated contract.

REASON FOR THE REPORT:

Council approval is required to enter into an agreement for fire protection services to a municipality outside City of Winnipeg boundaries.

HISTORY:

The City of Winnipeg Transit Department has entered into an agreement with Canadian Transportation Fuel Cell Alliance for the sublease and operation of the H2ICE Bus for a cold weather demonstration in Winnipeg for the period January 3, 2005 to February 28, 2005.

While contemplating storing the bus at the Winnipeg Transit facility it was determined that under safety and health regulations, all of their staff would have to be trained in the risk, safe

handling and operation of hydrogen powered vehicles. As the logistical strain and cost of such training would be prohibitive for the period of time in question, it was determined that another storage facility was necessary. The only suitable storage facility available was located at 2535 Inkster Boulevard, in the R.M. of Rosser, which directly borders city limits.

Canadian Transportation Fuel Cell Alliance's insurance carrier requires a higher level of service than the R.M. of Rosser can provide, therefore, they have requested a formal agreement for fire protection services for a contract fee of $4,000.00 paid upon execution of the contract.

DISCUSSION:

A decision to enter into an agreement with Canadian Transportation Fuel Cell Alliance to provide fire protection services for the H2ICE Bus stored at 2535 Inkster Boulevard in the R.M. of Rosser would require an amendment to Council's previous direction that the WFPS not provide service to municipalities outside city boundaries.

The bus will be stored in the facility at 2535 Inkster Boulevard and delivered to city limits each morning by the Province of Manitoba. Winnipeg Transit will take over custody of the bus for refueling at Red River Community College and operation on a regular transit route.

The WFPS will be required to respond to an emergency while the bus is fuelling at Red River Community College as well as during regular operation, therefore, the department is obliged to educate its staff about the risks. Under the obligation of the Fire & Paramedic Chief to protect City of Winnipeg property from risk that originates outside the City, and due to the proximity of the storage facility to the City of Winnipeg boundary, WFPS resources would be dispatched to mitigate a major incident related to that property.
