Recommendation: Approved with conditions

Site Description

The 5740 sq. ft. lot is located at the N.E. corner of St. Mary's Road and Sherwood St. The site is and has been occupied for many years with a duplex which was converted in 1981 into a combination residence/ beauty salon. The land at that time was rezoned from a residential single family designation to a "C1" Commercial designation with restrictions on use. To the south across Sherwood Street is a business zoned "C2" Commercial. Adjacent to the north is a dwelling and several multiple family complexes both zoned RM-2 Multiple Family. To the east across the lane are single-family homes zoned "R1-5" and similarly to the west across St. Mary's Road are homes zoned "R1-5" single family. Access to a parking area which would hold approximately half a dozen cars is off the rear lane.

Background

As previously outlined, the building was used for purely residential purposes up until 1981, at which time a part of the structure was converted into use for a beauty salon. The lane was rezoned to a restrictive commercial "C1" category at that time and has been used as a combination residence/ beauty salon ever since.

Description of the Proposed Development

The prospective new owners, Terracor Business Solutions, are in the process of purchasing the property and utilizing a portion of the building for office use. The business which is a small Manitoba based consulting firm established in 1991, will provide process analysis and accounting solutions to their client base in Western Canada. Due the nature of their work, there many of the staff are traveling during the week and there are therefore minimal staff on premises during normal business hours. Normal business hours are, by the way. 8:30 AM –5:00 PM Monday to Friday. Equipment on the property will be limited to computers and network equipment with access to high speed internet services. There will be no anticipated changes to the exterior of the building or changes to existing landscaping or fencing. The existing parking area is paved. It should be noted that it is not clear at this time whether the residential component is to be retained.

Analysis

It is the opinion of the Planning Property and Development Division that the addition of office use to the current restricted list of uses will not alter or increase significantly the intensity of use on the site. Nor should the proposed change have any adverse effect on neighbouring property owners. Traffic to the site will be minimal and may be less than that which was experienced under the previous use.

Recommendation

The Planning and Land Use Division recommend approval for the following reasons:

- The proposed new use will generate less traffic and activity then previously allowable uses.
- The proposed use is only operational during regular business hours Monday to Friday.

Recommended Conditions of Approval

I. That the Zoning Agreement Caveat No. 81-10850 under file no. DAZ 278/80, dated, February 18/81 (By-Law # 2910/81), be amended *by adding office uses to the list of permitted use in Clause 2 of the agreement.*

II. That the City Solicitor/Manager of Legal Services be requested to prepare the necessary Amending Agreement to Zoning Agreement DAZ 278/81(By-Law # 2910/81), dated, February 18/81 as approved in aforesaid Clause I.

III. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

IV. That the City Solicitor/Manager of Legal Services be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.
