SUMMARIZATION OF REPRESENTATIONS AND SUBMISSIONS
MADE AT THE PUBLIC HEARING

The applicant, Raymond Massey, Massey Management Services, appeared in support of the application and read into the record a presentation filed as Exhibit 12. In response to committee's questions, Mr. Massey stated that there was a need for additional parking for the building's tenants. He also stated that the greenspace on the property was privately owned and fenced in.

Verna Kane appeared in opposition to the application. Ms Kane stated concerns with the original agreement requiring greenspace between the development and the residential homes, the existing parking lot not currently being fully used, snow clearing, exhaust from cars, noise from slamming car doors, and poor drainage. She also stated that the greenspace was good for the area residents and the tenants of the development. In response to the committee's questions, Ms Kane stated she was the resident directly next to the development.

Robin Gellin appeared in opposition to the application. Mr. Gellin stated concerns with the loss of the greenspace created by the original agreement as a buffer, noise from the air conditioning, snow piling currently done on the greenspace, the destruction of trees to make room for parking, the lack of drainage in the area, and vandalism. He also stated that the tenants of the development should use public transportation or move to a location where parking existed.

In rebuttal, Mr. Massey stated there was a 6 foot privacy fence along the east side wall and that snow had been piled on the greenspace because it was private property. In response to committee's questions, Mr. Massey stated that with the increase in parking stalls they would now have to haul away the snow. He also stated that the lease agreement prohibited backing into the stalls, to eliminate fumes from cars being directed at neighbours.. He further stated that noise was a city-wide problem and not specific to this application.. He also further stated that the tenants wanted parking on their property and were aware of the application.

Site Description

The subject site is located along the east side of Burnell Street, north of Ellice Avenue. The site is developed with a 9-storey seniors residence, zoned "RM-7" Multiple-Family District. Neighbouring properties include older dwellings (to the north, zoned "R2-T" Two-Family Transitional District), a church (across the public lane to the east, zoned "R2-T"), retail and personal service uses along Ellice Avenue (across the public lane to the south, zoned "C1.5" Commercial District), and a school (across Burnell Street to the west, zoned "R2-T").

Subject site: aerial photo flown 2005.

Description of the Proposed Development

The applicant intends to establish a 12-space parking area between the building's north wall and the north property line. The proposed asphalt-surfaced parking area is adjacent to the existing approximately 40-space parking area. In addition to the Zoning Agreement amendment, variance of parking provisions is also necessary to establish the proposed parking area (the subject of DAV 06-144175/D).

Analysis

This portion of the St. Matthews neighbourhood is designated "Neighbourhood" under *Plan Winnipeg*. This designation accommodates a variety of residential densities and built forms, along with commercial, institutional, and parks & recreation uses. The parking area is proposed

in order to address a shortage of offstreet parking spaces for tenants of the seniors residence. Plans submitted indicate no new building or expansion of the 9-storey residence is proposed and that a substantial portion (approximately 86-feet by 56-feet) of the tenant park area will be maintained.

The Zoning Agreement clauses were likely intended to ensure adequate separation between the 9-storey building and nearby residences and provision of private onsite park amenities for residents. The proposed 12-space parking area will have no appreciable impacts on adjacent properties or on the surrounding area, subject to the recommended amendments to the Zoning Agreement.

Recommendation

The Planning and Land Use Division recommends the Zoning Agreement amendments be approved, as specified in the "Recommended Conditions of Approval", for the following reasons:

- The proposal is consistent with *Plan Winnipeg*; and
- The proposed amendments will provide site development flexibility while continuing to provide adequate principal building separation from neighbouring properties.

Recommended Conditions of Approval

I. That the Zoning Agreement Caveat No. 230661 under file no. DAZ 116/73, dated May 29, 1974 (By-Law #643/74), be amended as follows:

1) By replacing Clause 3—"The northerly seventy-five (75) feet of the land shall be cleared, landscaped and maintained as a landscaped portion of the building site without any building thereon to the satisfaction of the City"—with "No building shall be located within the northerly 75 feet of the property, with the exception of an uncovered surface parking area and detached accessory structures";

2) By deleting Clause 4—"The parking ratio in respect of any Senior Citizens Residence constructed on the land shall be 0.2 times the number of suites contained in the Residence."

II. That the City Solicitor/Manager of Legal Services be requested to prepare the necessary Amending Agreement to Zoning Agreement DAZ 116/73 (By-Law #643/74), dated May 29, 1974, as approved in aforesaid Clause I.

III. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

IV. That the City Solicitor/Manager of Legal Services be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.
