Report

REASON FOR THE REPORT:

Council approval is required for a by-law to reactivate deferred local improvement taxes.

HISTORY:

On April 5, 1978, Council passed By-laws for local improvements installed on 18 Hastings Boulevard and 20 Hastings Boulevard. Section 1 of these By-laws lists the following:

By-law No.	Improvement Type	Term	Annual Levy
1862/78	Wastewater Sewer	1978-97	$61.37
1864/78	Land Drain Sewer	1978-97	$167.38
1871/78	Watermain	1978-97	$81.42
1876/78	Street Pavement	1978-97	$257.36

The above local improvements were deferred on August 15, 1979 by By-law 2392/79 for 18 Hastings Boulevard and By-law 2391/79 for 20 Hastings Boulevard.

On December 13, 2006 the solicitor, acting on behalf of the property owner, paid the full cost of the local improvement taxes in the amount of $8,243.24 and requested the deferment on both properties be discharged.

DISCUSSION:

The Conditions set forth in Deferment By-laws 2392/79 (18 Hastings Boulevard) and 2391/79 (20 Hastings Boulevard) state:

> *"The deferment permitted under this by-law shall cease and the special assessments provided in the By-laws set out in Section 1 shall be paid at the same cash value or amortized cost as required in the original subject assessment By-law upon the occurrence of any of the following:*

i. *Registration of a plan of subdivision or resubdivision affecting part or all of the property where deferment has been allowed;*

ii. *Where part or all of a property enjoying deferment is rezoned permitting a change in land use. The effective date upon which the special assessments shall become due and payable under this clause shall be the day the rezoning permitting a change of land use comes into force and effect under the appropriate by-law;*

iii. *Any other condition which, in the opinion of Council, would remove or alter the reasons originally advanced to support the deferment, such as a consent to convey a portion of the site to a developer, where a change in land use is contemplated;*

iv. *Granting of a variance, allowing change in land use. The effective date upon which the special assessments shall become due and payable under this clause shall be the date of the variance order.*

Although none of the above mentioned conditions have occurred, By-Laws 2392/79 and 2391/79 also contain provision which enable the property owner to pay the cash cost or commuted value of the deferred local improvements at any time.

The City has been notified that the current owner requires the discharge of Notices of Deferment due to the sale of both properties. Reactivation of the levies is necessary in order to allow the cost of the Local Improvements to be added to the tax roll and the Notices of Deferment discharged. Payment for these local improvement taxes has already been remitted.

Upon Council approval of the reactivation by-laws, the local improvement taxes will be imposed on the subject property. The payment that has been received will be processed and a discharge will be provided to the property owner. Once the discharge has been registered, the Winnipeg Land Titles Office will cancel the Notices of Deferment that are currently registered on the titles.
