Planning, Property and Development Department Report

To the Lord Selkirk-West Kildonan Community Committee

Date: December 1, 2006
File: DASZ 46/06

Subject: Subdivision and rezoning application to consolidate and rezone the subject lands from "RM-3" to "RM-5" Multiple-Family District in order to add 4 additional dwelling units to three existing multiple-family buildings

Location: 202/204 Perth Avenue and 205 St. Anthony Avenue

Applicant: B&M Land (John Thorvaldson)
Owner: 21431518 Manitoba Ltd.

Recommendation: Approval

Site Description
The subject properties, which are zoned "RM-3" Multiple-Family Residential, are located between St. Anthony and Perth Avenues in the Jefferson neighbourhood of the Mynarski ward.
North: Multiple-family dwelling zoned "C1.5" Commercial
South: Multiple-family dwelling zoned "C1.5" Commercial
East: Main Street, then commercial uses zoned "C1.5" Commercial
West: Residences zoned "R1-4" Residential

Description of the Proposed Development
The applicant currently owns three multiple-family residences on the subject lands. In conjunction with building upgrades, they wish to convert space previously used for building operations into additional suites. They proposed the following:

- 202 Perth – 1 additional dwelling unit for a total of 12
- 204 Perth – 1 additional dwelling unit for a total of 12
- 205 St. Anthony – 2 additional dwelling units for a total of 25 units

Analysis

As previously mentioned, the applicant has made substantial upgrades to the subject building over the past and have additional space which is no longer needed for building operations. In light of this, there is room for additional suites.

Plan Winnipeg Compliance
The subject application constitutes development within a Neighbourhood Policy Area. Neighbourhood Policy Areas are intended to include a residential mix together with a variety of educational, recreational, institutional, commercial and possibly industrial uses, at a scale and density compatible with each other.

Compatibility with existing neighbourhood and surrounding uses
The subject apartment building has existed for some time and the addition of 1-2 suites per building will not have an appreciable impact on adjacent properties.

Basement Suites
The dwelling units being proposed is in the basement. Typically, units in the basement are not desirable because of less natural light and air circulation. However, the Planning and Land Use Division has inspected the basement suites and verifies that the suites, which is slightly above grade, has windows and receives a generous amount of natural light and air. In addition, there are currently several other suites in the basement.

Recommendation

The Planning and Land Use Division recommend approval for the following reasons:

- **The proposed rezoning and site design are compatible with the surrounding community in scale, the intensity of development, and the nature of the use;**
- **The proposed rezoning will not create an adverse effect on the amenities, use, safety and convenience of the adjoining properties and adjacent area;**
- **The size of the suites is adequate and the proposed density will not result in overcrowding or over densification of the site.**
