Report

REASON FOR THE REPORT:

The approval of individual projects for Local Street Renewals and Lane Renewals is required from the Standing Policy Committee on Public Works.

HISTORY:

The 2006 Capital Budget adopted by Council February 21st, 2006, included adoption of a Five Year Capital Forecast. The adopted Public Works 2007 Forecast for the Regional and Local Streets Program was $37,278,000.00. This 2007 Capital Budget includes proposed capital funding of $15,155,000.00 for a Local Street Renewal component and proposed capital funding of $749,000.00 for a Lane Renewal component. The proposed funding for the Local Street Renewal component includes a Provincial contribution consistent with previous years.

DISCUSSION:

Attachment (1) is the list of local streets recommended for renewal in 2007 and to be funded with the proposed $15,155,000.00 of Province of Manitoba/City of Winnipeg capital funds.

Attachment (2) is the list of back lanes recommended for renewal in 2007 and to be funded with the proposed $749,000 of City of Winnipeg capital funds.

In the event that Council adopts a lesser Local Street Renewal budget, the Director of Public Works will determine which streets will be deferred to 2008.

In the event that surplus funding accrues upon tendering the projects, it is recommended that the Director of Public Works be delegated authority to determine appropriate additional renewal projects.

The distribution of the local streets and the back lane projects among the fifteen wards of the City is based on proportional local street renewal and lane renewal needs. Proportionality is the result of the application of the pavement condition rating system on the local streets and back lanes during 2004.

The attached lists of proposed local street renewal projects and lane renewal projects have been reviewed with the respective ward Councillors.
