To Whom It May Concern

I am pleased to add my name to those who are eager to testify to the role that Gordon-King Memorial United Church plays in the community. It is indeed a community gathering place, or community centre, for the surrounding neighbourhood. A variety of community groups make use of it, from Brownies to AA, to the local school, to mention a few. It is also a place for different community events and has the potential to be an even greater resource as one of two anchors in the community, Glenelm School being the other.

Any assistance that might be available for improvements to the church would be money well and wisely invested in a worthwhile community resource.

Sincerely,

Bill Blaikie, MP
Elmwood-Transcona
