Subject: To rezone the subject property from an " A-5" Agricultural District to an " RM-3" Multiple Family District and Public Reserve in order to facilitate development of an assisted living housing facility.

Location: NE corner of St. Anne's Road and Warde Avenue

Legal Description: SP Lot 11, Plan 20519 WLTO

Applicant: ND LEA Inc.

Owner: Hyoung Key Chae & Ki Soo Lee

Recommendation: Approval with conditions

Report Summary:

- The proposed facility is in full compliance with Plan Winnipeg Policy and is in character with developments of a similar nature which have already been constructed along the east side of St. Anne's Road.

- The proposed building will be three stories in height and will have a total of one hundred and fifty (150) dwelling units (seniors independent living) when complete.

- Primary access will be directly from St. Anne's Road at the NW corner of the site but there will also be a secondary (temporary) access via the future Warde Avenue right-of –way.

Site Description:

Existing Use/Zoning:

The subject 4.3 acre site is vacant and zoned A-5 Agricultural. It is heavily treed along the Seine River.

Surrounding Land Use and Zoning:

To the immediate north is a church owned and operated by the Hindu Society of Manitoba. To the west is a vacant parcel of zoned 'C2' Commercial land and an established "R1-3.5" Single Family residential subdivision. To the south of the future Warde Avenue extension are lands owned by the La Division Scolaire Franco Manitobaine . A school is planned at this location. To the east is the Seine River the south edge of the Royal Wood Subdivision.

Description of the Proposed Development:

The proposal calls for the construction of a three story , one hundred and fifty unit Seniors Independent Living facility which will be well set back from St. Anne's Road on the subject property. The proposed building will be well screened from the highway by a heavily landscaped surface parking area which will be able to accommodate seventy four (74) vehicles. The main floor of the facility will have staff offices, lounge areas, a games room, theatre and the central dining room in addition to some suites. The second and third floors will be comprised of one and two bedroom units in addition to sitting areas and observation decks. The structure is circular in design, focused inwardly on a central courtyard. The overall site area for building and proposed parking totals 3.56 acres. An additional 1.81 acres of public reserve area is being retained by the City along the Seine River. The new facility will have primary access directly off of St. Anne's with a secondary access via a partial opening of the Warde Avenue extension. It should be noted that portions of the original overall parcel, abutting St. Anne's Road and the Warde Avenue extension , will be transferred to the City of Winnipeg for future right-of –way purposes.

Analysis:

The Neighbourhood Planning Branch has reviewed the proposal and is of the view that an assisted living housing facility is an appropriate use on the land in question. The structure is of a scale that is in character with adjoining uses of a similar nature to the north along St. Anne's Road and is well set back from that right-of-way by as much as 200' (60.9 m) of landscaping and surface parking area. Although building profiles are not as yet available, it does appear that the design of the structure is innovative and unique in some ways with everything orienting inwards towards a central courtyard area. The internal pathway system will also be able to tie in eventually with pedestrian pathway systems planned for the designated public reserve areas along the river. Through the subdivision and rezoning process, the City is also acquiring land that will be needed in the future for the Warde Avenue extension and a widening of St. Anne's Road. Seniors Independent Living facilities of this type are important components in every new

neighbourhood, if properly planned and sited. With that in mind, we strongly support the subject application and recommend that it be endorsed (with the accompanying conditions) by your Committee.

Recommendation:

The Planning and Land Use Division recommends approval of the proposed rezoning and subdivision for the following reason:

- The proposed use is in compliance with Plan Winnipeg Policy and is of a scale which is in character with the surrounding neighbourhood.
