Report

REASON FOR THE REPORT:

All street and lane closings require the consideration of the Community Committee.

HISTORY:

The Planning, Property and Development Department has received a request from Manitoba Hydro to purchase Campbell Street identified as “Proposed Closing – DAC 5/2007” on the attached Misc. Plan No. 12979/3. Manitoba Hydro is presently in the process of purchasing the adjoining City of Winnipeg property to the west (Parcel B, Plan 43496). The sale of this adjoining property was approved by the Standing Policy Committee on Property and Development on April 3, 2007. This property, together with the closed street, will allow Manitoba Hydro to expand their existing substation located at 1552 Taylor Avenue in order to meet future electrical load requirements.

DISCUSSION:

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the closing.

The Transit Department has advised that since service along Taylor Avenue was extended to Swindon Way, the bus loop in the area no longer serves any purpose and has been abandoned.

The Transportation Division of the Public Works Department has the following conditions to its approval of the closing:

1.) The existing bus loop approach from Taylor Avenue approximately 35m west of Campbell Street is either to be removed and the curb, boulevard and sidewalk restored by the applicant, at no expense to the City, as determined by and to the satisfaction of the Director of Public Works or an application for private approach approval will be necessary in order for this lane approach to remain as a private approach.

2.) The existing street approach from Taylor Avenue for Campbell Street is to either be removed and the curb, boulevard and sidewalk restored by the applicant, at no expense to the City, as determined by and to the satisfaction of the Director of Public Works or an application for private approach approval will be necessary in order for this street approach to remain as a private approach.

Easements

MTS requires an easement for the maintenance of their services within the most northerly 3.1m of the Campbell Street closure.

Transfer of Jurisdiction Over Public Rights-of-Way

The street must be legally closed before it may be sold. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
