Report

REASON FOR THE REPORT:

In accordance with the Council Order of July 18, 1979, the Standing Policy Committee on Property and Development shall authorize the leasing or rental of City properties for which the Director of the Planning, Property and Development Department has no authority. In this regard, the Department has negotiated a proposed Encroachment Agreement in favour of Winnipeg Regional Health Authority for the construction and maintenance of an underground tunnel within the Emily Street Right-of-Way shown as 'Encroachment Area' on Misc. Plan No. 13140/1 attached. This Report seeks Council's approval of the Encroachment Agreement.

HISTORY:

Stantec Architecture Ltd., on behalf of the Health Sciences Centre, submitted an encroachment application to the Zoning and Permits Branch of the Planning, Property and Development Department for the proposed construction and maintenance of an underground tunnel, to be used to connect the new parkade to the existing Health Sciences Centre tunnel system within the Emily Street Right-of-Way.

The application was circulated to various City departments and public utilities for consideration and comments. No objections were received for the proposed development and use of the subject Right-of-Way.

DISCUSSION:

Pursuant to Section 4(1)(d) of the City's Encroachment By-law No. 692/74, the Department has concluded its negotiations of an Encroachment Agreement with Winnipeg Regional Health Authority and both parties concur that the proposed terms and conditions are fair and reasonable. As well, the proposed terms and conditions are consistent with other such Encroachment Agreements for similar uses.

Briefly, the terms and conditions of the Encroachment Agreement agreed to by Winnipeg Regional Health Authority are as follows:

Use:	Construction and maintenance of an underground tunnel
Area:	Shown and identified as 'Encroachment Area' on Misc. Plan No. 13140/1
Term:	Annual continuing commencing June 1st, 2007
Rental:	$704.00 per annum, plus applicable GST, computed on the basis of the fees outlined in the City of Winnipeg Encroachment By-law No. 692/74 and amendments thereto, in the event that the By-law is amended, changing the fees charged for encroachments, the rental paid under this agreement shall be adjusted accordingly
Insurance:	Property and Liability insurance requirements have been updated by the Risk Management Branch staff as deemed appropriate to cover the scope, terms and conditions of the agreement.
Cancellation:	180 days written notice

Conditions:

- The Designated Encroachment Officer is prepared to approve the application subject to the applicant entering into an Encroachment Agreement with the City of Winnipeg within six (6) months, or alternatively obtain an extension of time with which to execute an Encroachment Agreement;

- The construction and maintenance of the Encroachment Area will be performed at the sole cost, expense and effort of the tenant, including, obtaining all permits required to develop, occupy and utilize the Encroachment Area for its intended use prior to any development;

- That if there are any existing Hydro/Gas or MTS facilities which require removal and/or relocation as a result of this application, the costs will be at the expense of the developer and/or customer;

- That Stantec Architecture Ltd. must submit detailed engineering plans and profile construction drawings, showing the proposed structure in relation to all existing Water and Waste Department plant, to the Underground Structures Branch of the Public Works Department for review and approval. Failure by Stantec to adhere to this condition will result in the Water and Waste Department revoking this approval;

- A submission to the Underground Structures Branch is required for associated approvals of the structural plans showing the tunnel with cross section details and dimensions, including the roadway and supporting elements;

- As this is newer pavement and has a good rating it would require pre and post construction documentation to assure there is no excessive deterioration during the works, and where excavations are made in the pavement, it may require full or partial panel repairs as determined by the Director of Public Works;

- Any other terms and conditions as are deemed necessary by the Director of the Planning, Property and Development Department and by the City Solicitor/Manager of Legal Services to protect the City's interests;

- Winnipeg Regional Health Authority agrees to enter into an appropriate Encroachment Agreement with the City embodying the above-mentioned terms and conditions and in a form satisfactory to the City Solicitor/Manager of Legal Services
