Site Description

Existing Land Use and Zoning

The Trucking Terminal operation on site includes an office building, maintenance shop, truck wash and the parking/storage of trailers and containers. The remainder of the subject area considered in this application, approximately 4.5 acres is zoned 'A.5' Agricultural and consists of blocks that were part of an obsolete plan of subdivision and selected street rights-of-way.

Surrounding Land Use and Zoning

Background
DASZ 19/03 – similar rezoning and expansion

Description of the Proposed Development
The applicant, on behalf to the owner of 50 Omands Creek Boulevard is applying to rezone approximately 4.5 acres of adjacent property to the south and consolidate these lands with the existing 9.0-acre site occupied by their Trucking operation. In conjunction with the subdivision and rezoning application the applicant has applied to close several existing, unpaved street rights-of-way within the subject area, DAC 2/2007.

Analysis
PLAN WINNIPEG
The subject area is designated Industrial in Plan Winnipeg, thus the proposed rezoning and the expansion of the existing use complies.

COMPATIBILITY
The Trucking terminal and storage use is located within the Omands Creek Industrial Neighbourhood. The expansion and continued use of the site should not have any negative impact on the surrounding properties.

TRANSPORTATION AND SITE ACCESS
Access will remain off Omands Creek Boulevard providing direct connection to Logan Avenue to the south and Brookside Boulevard to the north.

SERVICING
The ACG did not require a servicing agreement with this application.

SITE DESIGN ISSUES
With the acquisition and consolidation of the additional lands into the existing parcel the legal description will be changed. Therefore the existing Zoning Agreement caveated to the property will have to be discharged and a new Zoning Agreement attached. The Zoning Agreement dates back to 1977 when several of the Industrial properties were created along Omands Creek Boulevard. The main intent of the agreement was to maintain a higher standard of industrial development for this area requiring 25-foot front yard setbacks as well as the screening and landscaping of outside storage and parking. The Administration will recommend those two development conditions be reattached in a new Zoning Agreement for the property.

COMMENTS FROM OTHER DEPARTMENTS
Water and Waste will require an easement along Whitfield Avenue, (to be closed) for the maintenance of the existing watermain, wastewater sewer and land drainage utilities.

Manitoba Hydro will also require easement(s) for their facilities within the existing streets under the proposed closure.

LAND DEDICATION

The ten (10) percent land dedication will be required as part of the conditions of approval.

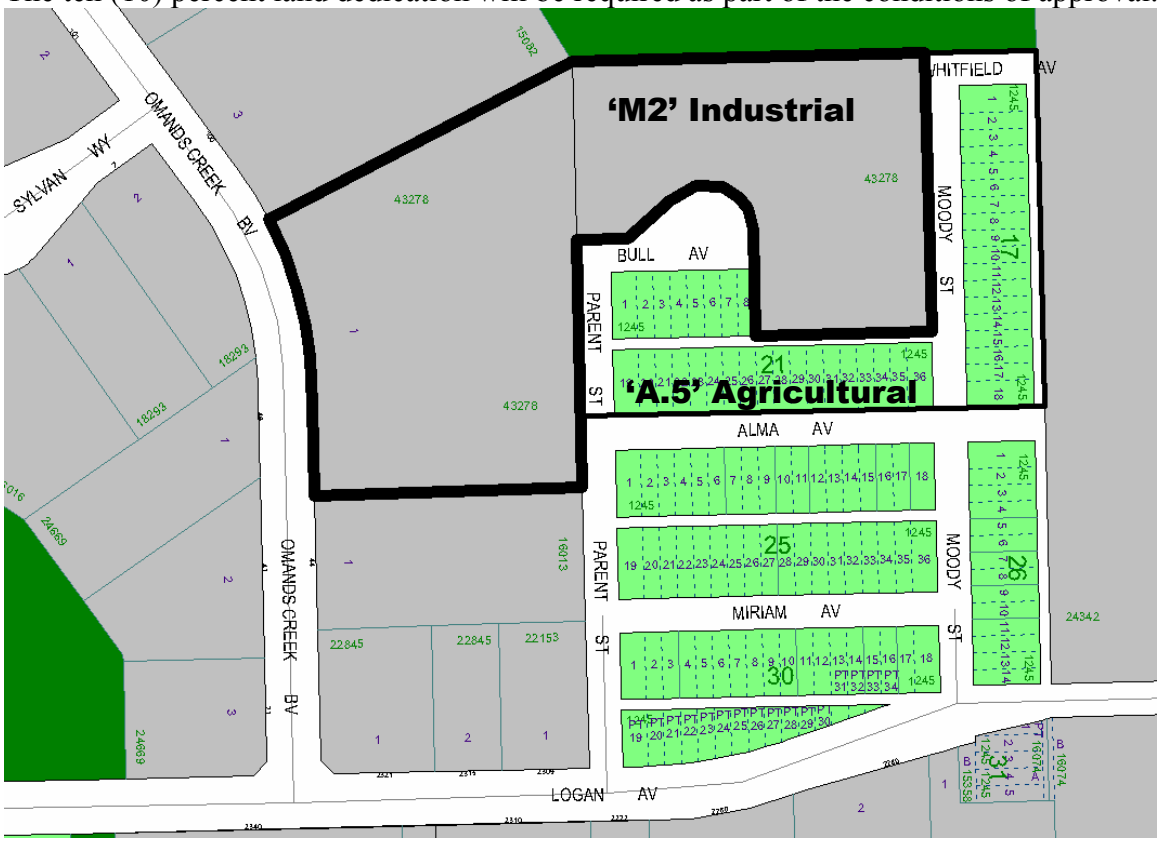

Figure 2: Subject Area; Existing Zoning and Street rights-of-way

Recommendation

The Planning and Land Use Division recommends approval of the proposed rezoning and subdivision for the following reasons:

- Complies with Plan Winnipeg
- The existing use and expansion is compatible with the surrounding context
- The high standard of site development will be maintained
- Our Industrial land use policies encourage the facilitation and expansion of these types of uses where appropriate, promoting stability and predictability.

Recommended Conditions of Approval

1. That the plan of subdivision proposed under File DASZ 25/2007 be approved for preparation as a plan of subdivision by a Manitoba Land Surveyor in accordance with Schedule "A" for File DASZ 25/2007 dated August 22, 2007, for registration in the Winnipeg Land Titles Office.

2. That The Winnipeg Zoning By-law No. 6400/94 be amended by rezoning the subject land as shown on Schedule "A" for File DASZ 25 /2007 dated August 22, 2007, to a "M2" Industrial District subject to the following:

    A. That the applicant enter into a Zoning Agreement with the City pursuant to Section 240 (1) of The City of Winnipeg Charter to include the following conditions:

        i. That each building within the land shall have:

That on any building site within the land where the parking, loading or storage of vehicles takes place within twenty-five (25) feet of an abutting street the owner of that site shall construct and maintain a landscaped buffer strip fifteen (15) feet wide designed, planted and maintained in good condition to the satisfaction of the Director of Planning Property and Development.

3. That a ten percent (10%) dedication be made by a payment of a sum of money to the City in lieu of the requirement for land dedication based on the increase in market value of the land.

4. That Caveat No. 3066089 be withdrawn.

7. That the City Solicitor/Manager of Legal Services be requested to prepare the necessary by-law in accordance with the above.

9. That the subdivision section of the by-law shall come into force and effect upon registration of the Plan of Subdivision in the Winnipeg Land Titles Office.

10. That the zoning section of the by-law shall come into force and effect when the Plan of Subdivision has been registered in the Winnipeg Land Titles Office and the Zoning Agreement has been filed by caveat in the Winnipeg Land Titles Office against those lands provided that the said effective date occurs within twenty-four (24) months from the date that the said rezoning by-law is adopted by Council.
