Subject: To rezone the land shown outlined below from a "C2" Commercial District to an "M-1B" Light Industrial District.

Location: 258 Burnell Street
Legal Description: Lot 15 Plan 33989 WLTO in RL 63 and 64 Parish of St. James

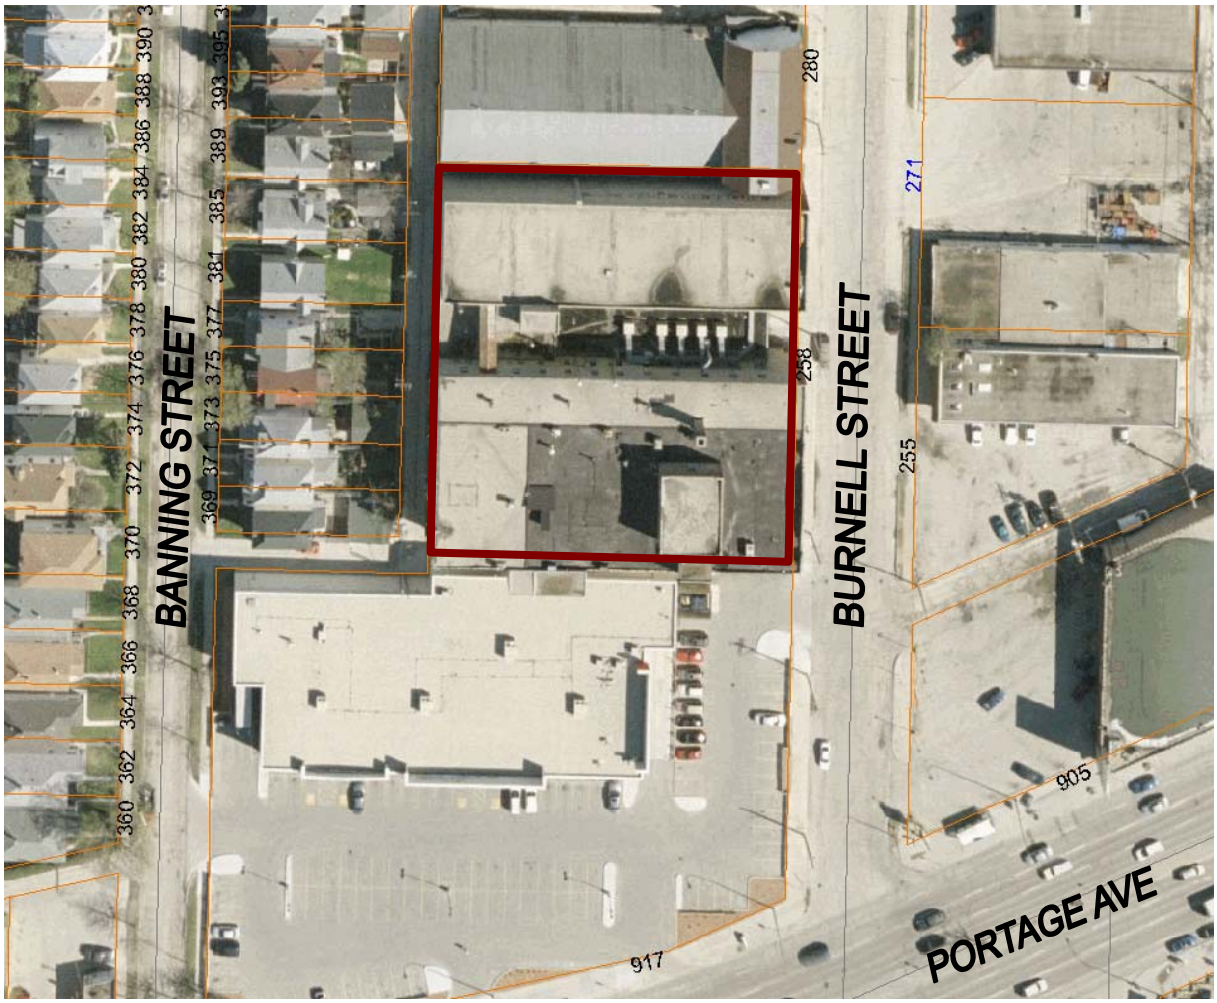

Applicant: John Stroich 5107644 Manitoba Inc.
Owner: 5107644 Manitoba Inc.

Recommendation: *Approved with conditions*

Site Description

The subject site is located along the west side of Burnell Street, north of Portage Avenue and is in the St. Matthews Neighbourhood of the Daniel McIntyre Ward. The site is zoned "C2" Commercial District. The existing commercial/industrial building on the subject property has been vacant for at least five years. This block of Burnell Street is characterized by similar industrial buildings, many of which are vacant. Abutting the subject property to the north is a curling club. Across the street on the east side of Burnell are "C2" zoned lands. To the south, along Portage Avenue, are recently developed commercial buildings zoned "C2". Across the back lane to the west are single-family dwellings and duplexes zoned "R2" Two-Family District.

Subject site: aerial photo flown 2005.

Description of the Proposed Development

The applicant proposes to rezone the subject site in order to establish a mini storage rental warehouse within the existing building. "Rental Storage Units", under Zoning By-Law No. 6400/94, are not a permitted or conditional use in the "C2" Commercial District.

Although the site provides no accessory parking, plans indicate internal loading areas via four large overhead doors accessed via Burnell Street.

Due to the zoning change, variances are necessary (the subject of DAV 07-145322/D), for floor area ratio, parking and setback requirements.

Analysis

St. Matthews is designated "Neighbourhood" policy area under *Plan Winnipeg*. This designation is intended to include "a residential mix together with a variety of educational, recreational, institutional, commercial, and possibly industrial uses, at a scale and density compatible with each other." (Policy 3A-01) Although the establishment of new industrial zoning in a mature neighbourhood area is uncommon, it is not inconsistent with Plan Winnipeg. The subject property, in this instance, like many of the nearby properties on Burnell, has had a history of light industrial use. 258 Burnell Street was formerly a wholesale producer and distributor of baked goods.

The existing "C2" Commercial District, which is intended for intensive commercial sites that do not have a local or neighbourhood orientation, although appropriate for the adjacent Portage Avenue properties, is not typically assigned to narrower mixed-use streets like Burnell Street. Burnell Street is not typical of other streets in this neighbourhood in many respects. Although it is not a regional street, between Portage and Ellice Avenues, Burnell has a very high proportion of commercial, industrial, and higher-density multiple-family uses.

As an "M1-B" Industrial District use, the proposed indoor storage is probably the least intrusive of industrial uses. However, this use is *only* permitted in Industrial Districts. Its industrial nature is limited to its loading and unloading activities and its large floor area in proportion to the number of staff and customers attending the site. The proposed use will not generate noise or odour or increases in traffic. All its activities will be internal within the existing building. Its visual impact on the neighbourhood will not change or may improve modestly as the building is renovated.

Given the opportunity for adaptive reuse of this boarded up property and the absence of other prospects for its redevelopment in the foreseeable future, the Planning and Land Use Division recommends rezoning to M1-B along with a Zoning Agreement to ensure that future uses of this site are restricted to those with the least impact on the adjacent residential neighbourhood.

Recommendation

Planning and Land Use Division recommends the subject site be rezoned to "M1-B" Light Industrial District for the following reasons:

- The proposal is consistent with *Plan Winnipeg*;
- The proposal will not create any nuisance for the neighbourhood.
- The redevelopment of the vacant building will add vitality to the neighbourhood.

Conditions of approval are recommended in order to ensure compatibility with adjacent properties and the surrounding area.

Recommended Conditions of Approval

1. That The Winnipeg Zoning By-Law No. 6400/94 be amended by rezoning the subject land as shown on Schedule "A" for File No. DAZ 225/07, attached hereto and dated September 20, 2007, to an "M1-B" Industrial District, subject to the following:

   A. That the applicant enter into a Zoning Agreement with the City of Winnipeg pursuant to Subsection 240(1) of the city of winnipeg charter, to provide for the following:

extension of time is applied for prior to the expiry of this twenty-four (24) month period and the extension is subsequently approved by Council.

4. That the City Solicitor/Manager of Legal Services be requested to prepare the necessary rezoning by-law and forward same to Council for all three (3) readings.
