STANDING POLICY COMMITTEE ON PUBLIC WORKS

QUESTION PERIOD

Minute No. 72
Councillor Steeves inquired if Councillor Angus was aware that the City of Winnipeg had been selected as one of the 15 municipalities in Canada to proceed to the next phase to prepare the final levels of presentation for eventual application for 40 million in funding for eco programs.

Councillor Angus replied in the affirmative, noting that the City of Winnipeg was one of 15 municipalities selected to attempt to obtain $30,000 to try and reduce greenhouse gas emissions. He commended Councillor Steeves for his leadership on the Environment Committee and acknowledged that the lobbying he did in Ottawa resulted in the City of Winnipeg being the only municipality short listed that is putting forward a proposal for rapid transit opportunities.
