Dear Ms. Marques:

ZONING AGREEMENT AMENDMENT
71 Georgetown Drive
Assiniboia Community
File No. ZAA 11/02

An application has been received from Calega Krishna Ramberran, to amend the Zoning Agreement affecting the property shown below by amending Clause 2 of By-Law 7440/94 to exempt the subject property from the rear yard requirement of 85 feet to any principal building.

RELATED FILES: N/A

SITE DESCRIPTION:

Dimensions: lake lot: approx. 65 feet across front, 180 feet deep, narrowing to 44 feet at normal water level.

Site Area: about 9,900 square feet.

Existing Land Use and Zoning: single-family house zoned "R1-5" Single-Family Residential District.

DEVELOPMENT DESCRIPTION:

The lake lot contains a bungalow with walkout basement. The house was constructed with a deck (balcony) off the rear of the house at the main floor level. The deck, as initially constructed, provided a 72-foot rear yard. Normally the subject deck would be considered part of the principal building for zoning purposes. However, according to the Zoning Administrator, at the time of house construction decks were not considered part of the "principal building" for purposes of interpreting the Zoning Agreement. The reasoning was that the substantial rear yard of 85 feet was really intended to guard against basement flooding from the adjacent lake.

The subject ZAA was considered necessary as the applicant proceeded to enlarge the deck (from about 390 square feet to about 520 square feet) and enclose about 460 square feet of the surface with what appears to be a year-round Florida room. These improvements were undertaken without the necessary permits and *did* serve to expand the principal building into the 85-foot building setback. Stairs were also added to gain access to the rear yard. The attached digital photos show the extent of the work and the relationship of the property to the adjacent houses on Georgetown.

ADMINISTRATIVE COMMENTS:

The retention lake set backs were established by the Water and Waste Department in order to protect private property from potential lake flooding and to guard against related legal and financial repercussions. However, as the subject structure is elevated, flooding of the living space is not an issue. From a planning perspective, the building addition does not have a detrimental impact on adjacent properties except possibly in reducing the viewing angle from the adjacent properties. The denial of this application would require the applicant to demolish the structure, which is too severe a penalty for the infraction. Hopefully the actions of the applicant will not encourage others to undertake similar expansions.

RECOMMENDATION:

I. That Zoning Agreement DAZ 58/85 (By-Law #7440/99) be amended by adding the following to Clause 2(a): ***excepting Lot 7, Block 2, Plan 37,403, which shall provide a minimum setback of 22 metres (72 feet) to the principal building.***

II. That the City Solicitor be requested to prepare the necessary Amending Agreement to Zoning Agreement DAZ 58/85 (By-Law #7440/99) as approved in aforesaid Clause I.

III. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

IV. That the City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Act.
