Applicant: Sage Creek Development Corporation

Owner: Same as above

Recommendation: Approval with conditions

Site Description:

Surrounding Land Use:

North: To the north is the future Bishop Grandin r.o.w. extension and open agricultural lands, zoned "A-5" Agricultural and set aside for future phasing of the Sage Creek Development.
South: To the immediate south is a zoned "C2" Commercial area which will constitute the proposed 18.4 acre Village Centre of the first phase of development .
West: To the west is Lagimodiere Boulevard and the Island Lakes residential neighbourhood zoned "R1-5" single family residential.
East: To the east is the Manitobe Hydro Transmission Line and large undeveloped open areas zoned " A-5" Agricultural and set aside under the Area Structure Plan for future phases of development.

Existing Zoning

The subject parcel is currently vacant and zoned " A-5" Agricultural. An existing 5.3 acre "C2" Commercial parcel currently exists adjoining the proposed "RM-6" site which was rezoned "C2" under DASZ 24/2007.

Background:

In April 2005, the Standing Policy Committee on Property and Development identified the South St. Boniface Area Structure Plan as a priority project within the Planning, Property and Development Department's 2005 Secondary Plan Work Program.

The department implemented a collaborative planning process in partnership with Qualico Developments and their consulting team to prepare the area structure plan. This process also included close consultation with all affected City departments to address any issues related to the development of the subject lands and to ensure that the City's requirements were incorporated into the plan's policies.

On September 28, 2005, Council gave first reading to By-law 158/05 to adopt the South St. Boniface Area Structure Plan as a Secondary Plan and directed that the Riel Community Committee conduct a public hearing respecting the proposed by-law and plan. It was ultimately passed by Council November 23/05. In the early part of 2006, City Council endorsed the 1st phase of Sage Creek (DASZ 51/05) , which encompasses 103 acres overall and lies to the immediate south of Sage Creek Boulevard. In the spring of 2007, Riel Community Committee endorsed the second phase of Sage Creek under application DASZ 21/2007.

Description of the Proposed Development:

As previously outlined, the 5.3 acre commercial site has already been approved for a future office structure for the Qualico Corporate offices. Immediately adjacent, the applicants are proposing a 5.38 acre " RM-6" Multiple Family site which will accommodate, at some time in the future , upwards of 300 dwelling units.The northern boundary of Phase III is essentially comprised of of 4.49 acres of lineal public reserve and three water storage areas , which have an overall total of 7.4 acres . All three water storage or impoundment areas are linked by the proposed public reserve allowances. Three new streets will access the new phase; the largest of which is the extension north of Boulevards des Hivernants which is 32m wide. Burning Glass Road is to be also extended to connect with Dr. David Frieson Drive. There are no specific details as of yet regarding the development of the proposed multiple family site.

Analysis:

There are two primary reasons for advocating support for the latest phase. The establishment of the proposed drainage systems and impoundment areas, over the next year, will likely facilitate

development of the Phase II subdivision area currently underway immediately to the southeast. The drainage areas in Phase III are also linked to proposed drainage systems proposed for those areas directly north of Phase II which will be coming on track in the near future. The current phase also makes provision for a widening of Lagimodiere Blvd. at the n.w. corner of the site which will facilitate a future connection to the Bishop Grandin Blvd. extension.

Recommendation:

The Planning and Land Use Division recommends approval of the proposed rezoning and subdivision for the following reasons:

- The proposed use is consistent with the overall plans approved under the Area Structure Plan

Recommended Conditions of Approval

1. That the plan of subdivision proposed under File DASZ 32/2007 be approved for preparation as a plan of subdivision by a Manitoba Land Surveyor in accordance with Schedule "A" for File DASZ 32/2007 dated October 2, 2007, for registration in the Winnipeg Land Titles Office subject to the following conditions:

3. That the Director of Planning, Property and Development be authorized to certify any documents in connection therewith.
