Report

REASON FOR THE REPORT:

The Planning, Property and Development Department is in receipt of an Offer to Purchase the subject City-owned property shown in broken outline on Misc. Plan No. 8909/4. Council approval is required to declare the subject property surplus to the City's requirements. Standing Policy Committee on Property and Development approval is required for the sale.

HISTORY:

The City-owned property shown shaded on Misc. Plan No. 8909/4 forms part of property that was acquired by expropriation in 1967 by the former Metropolitan Corporation of Greater Winnipeg for transportation purposes in connection with the Broadway extension. After the Broadway extension was completed, the subject property was considered residual to the project.

Details of the subject property are as follows:

Location:	South side of Broadway at Picardy Place
Legal Description:	Lot 22, Plan 34193
Certificate of Title:	1476765
Roll Number:	12038178200
Assessment:	$23,400
Size:	±328.6 m² (±3537.1 sq. ft.)
Zoning:	"R2-T" – Residential District

In 1985, the adjoining owners at 18/22 Picardy Place, applied to purchase the subject City-owned property. The City Centre-Fort Rouge Community Committee had no objection to the proposed sale; however the sale of the property was not concluded.

In 1993, the new owner of 18/22 Picardy Place was also interested in purchasing the subject property to accommodate the development of a wood frame apartment block. At that time, the former Streets and Transportation Department identified a portion of the subject property that needed to be retained for street widening and for public lane turnaround. The owner did not pursue the purchase of the property further and instead offered to sell his property to the City. The City was not interested in acquiring the property at that time.

In 1998, the Department received another expression of interest from the Broadway First Baptist Church, which was interested in acquiring the subject property for parking purposes. Due to parking not being permitted under the "R2-T" Residential Zoning District, the Church did not proceed with the purchase.

DISCUSSION:

In 2005, the Department received communication from an interested party wishing to acquire the subject City-owned property to develop a small scale, mixed-use building that would include two or three residential units with some commercial space at grade.

The Department was considering disposing of the subject property through a public offering; however, in the fall of 2007 the Department received advice from New Directions for Children, Youth and Families Inc. (New Directions) that it was interested in purchasing the subject City-owned property. New Directions is proposing the development of a non-profit shelter housing facility that would assist women in the community in need of counselling, retraining and shelter housing. The project would consist of rehabilitation and training areas on the main floor and twelve (12) individual self contained shelter units on the second and third floors to be used for personal safety and privacy. These are short term transitional housing units that would enable New Directions in conjunction with their partners in the community to assess and assist those women in need. The appropriate measures and counselling would be applied with the aim of providing the necessary support services to reintegrate the women into society as positive and productive persons.

The subject property was circulated to all City Departments. The Public Works Department advised that the City would need to retain a 1m strip along the Broadway frontage for future street purposes (shown hatched on Misc. Plan No. 8909/4). In addition, access to the property will have to be taken from the lane and not Broadway. Aside from the requirements of the Public Works Department, no other civic need was identified.

The Planning, Property and Development Department supports the sale of the subject property to New Directions as it has been helping women, children, families and youth who are in need of supportive services since 1897. The Department has negotiated proposed terms and conditions of sale of the subject property with New Directions in accordance with the City's policy on the sale of land to non-profit organizations (i.e., purchase price of $1.00 and the property reverting back to the City at the conclusion of the economic life of the project).

The Planning, Property and Development Department is recommending the sale of the subject property shown in broken outline on Misc. Plan No. 8909/4 to New Directions for the following reasons:

a) The Ward Councillor supports the sale of the subject property to New Directions and its proposed project.
b) The Department has received a copy of a letter from the Province of Manitoba – Housing Services, encouraging New Directions to apply for Provincial loan support.

c) New Directions will be responsible for all costs associated with Plan of Survey in order to facilitate the requirements of the Public Works Department.
d) The property will generate realty tax upon closing of the sale.
e) The property shall revert back to the City at the conclusion of the economic life of the project.
