Recommendation: ***Approval***

Report Summary:

- The subject land has been used as a parking lot since 1989
- Most recently, a five year use variance for a non-accessory parking lot was approved in January, 2003
- The use variance recently expired and a rezoning is now required in order to continue the operation of the parking lot
- The Planning and Land Use Division recommends that the application be approved

Site Description
The subject property, which is zoned "R2" Two-Family Residential, is located at the northeast corner of William Avenue and Tecumseh Street, in the West Alexander neighbourhood of the Point Douglas ward.
North: Bus turnaround and park zoned "R2" Two-Family Residential
South: Residences zoned "R2" Residential
East: Institutional use zoned "C2" Commercial
West: Institutional use zoned "R2" Residential

Background
DAV 1051/2002C
The Board of Adjustment approved a use variance to permit the maintenance of a non-accessory parking area for a period of (5) five years, until January 2008.

DAV 981-2001/C
The Board of Adjustment approved a use variance to permit the maintenance of a non-accessory parking lot until January 31, 2003

DAV 738/89 and DCU 214/89
The City Centre-Fort Rouge Community Committee approved a use variance and a conditional use to permit the establishment of a non-accessory parking lot until April 30, 1991.

Description of the Proposed Development
The applicant wishes to rezone the subject property in order to maintain an existing non-accessory surface. The parking lot has been in place since 1989.

Analysis
Plan Winnipeg
Under Plan Winnipeg 2020, the subject property is located within a Neighbourhood Policy Area. Neighbourhood Policy Areas are intended to include a residential mix together with a variety of educational, recreational, institutional, commercial and possibly industrial uses, at a scale and density compatible with each other.

Secondary Plans
A draft Neighbourhood (Secondary) Plan has just been completed and will be scheduled for a public hearing in the next few months. In the Plan, this subject area is within the Institutional Sector, which provides for institutional uses and related parking.

Compatibility of use
The subject property is located on William Avenue and is abutted by institutional uses on three sides. Furthermore, the parking lot has been in existence for some time

Site Design Issues
The parking area will meet all By-Law development standards for fencing and landscaping

Recommendation

The Planning and Land Use Division recommend approval for the following reasons:

- The parking lot has been established for some time
- Parking is a significant problem at the HSC and the existing lot is needed by HSC to meet their parking demand
- The subject property is located on William Avenue, which is a commercial street, and surrounded by institutional uses on three sides

Recommended Conditions of Approval
