Report

REASON FOR THE REPORT:

On February 26, 2008, Standing Policy Committee on Property and Development concurred that the Winnipeg Public Service report back to the Standing Committee meeting scheduled for March 25, 2008, on the feasibility of declaring the property at 730 Pandora Avenue West surplus to the City's needs.

HISTORY:

The subject City property (2.398 acres) is shown outlined on Misc. Plan No. 11979. The Winnipeg Police Service has been operating out of this building since 1977, and with the exception of the Canine unit, they will be vacating the subject City property upon completion of their new premises on Dugald Road.

Details of the subject City property are as follows:

Location:	730 Pandora Avenue West
Description:	8,382 sq. ft. building
Legal Description:	Lot 1, Plan 34348
Site Size:	2.398 acres
Zoning:	"M2" Manufacturing General

The Winnipeg Public Service has consulted with City Departments and determined the following:

1. The Winnipeg Police Service advised that upon its move to the new district police station on Dugald Road, there is no provision to move the Canine operation presently housed at 730 Pandora Avenue West and consequently this unit is expected to remain.
2. The Public Works Department advises that the Plessis Road frontage is part of the inner ring road and a 12.3 metre widening along the Plessis frontage and a corner cut on the NW corner of the subject City property are required to accommodate a future street widening.

Manitoba Hydro owns a radio tower situated on the subject City property. As part of the Asset Purchase Agreement between Winnipeg Hydro and Manitoba Hydro, Manitoba Hydro was granted access to the tower for their use in return for providing free space on the radio tower for use by the City, all as set out in the Asset Agreement. The Tower Access Arrangements can be terminated upon one (1) year's calendar notice by either party.

DISCUSSION:

Land Use:

The subject City property is designated as an Industrial Policy Area in Plan Winnipeg 2020 Vision and is intended to include areas of concentrated industrial uses and supportive infrastructure with the possible inclusion of compatible commercial uses.

It is located in the Transcona Yards Industrial Neighbourhood Area Redevelopment Plan (By-law #141/2005) and any development on the subject City property must take into consideration this area's multiple roles such as linking North and South Transcona, ensuring public safety and mitigating potential impacts of industrial developments on the adjacent residential neighbourhoods.

Conclusion:

The Winnipeg Public Service has consulted with City Departments and has determined that: (1) the Winnipeg Police Service requires the use of that portion of the subject City property housing the Canine operation until it is relocated, and (2) the Public Works Department advises that a 12.3 metre widening of the Plessis Road frontage and a corner cut on the NW corner of the subject City property is required.

The Planning, Property and Development Department is therefore recommending the subject City-owned property shown outlined on Misc. Plan No. 11979, attached, be declared surplus excepting the 12.3 metre widening along the Plessis Road frontage and a corner cut on the NW corner of the subject City property required to accommodate future transportation purposes. In addition, the Director of Planning, Property and Development Department be authorized to market the subject property for sale to the general public at such time as the Winnipeg Police Service Canine operation has vacated the premises.
