Location: **7 Deepwater Cove**

Legal Description: **Lot 2, Plan 19970**

Owner: **Steven Ross Anderson and Marlene Anne Chzzy**

Recommendation: Approval

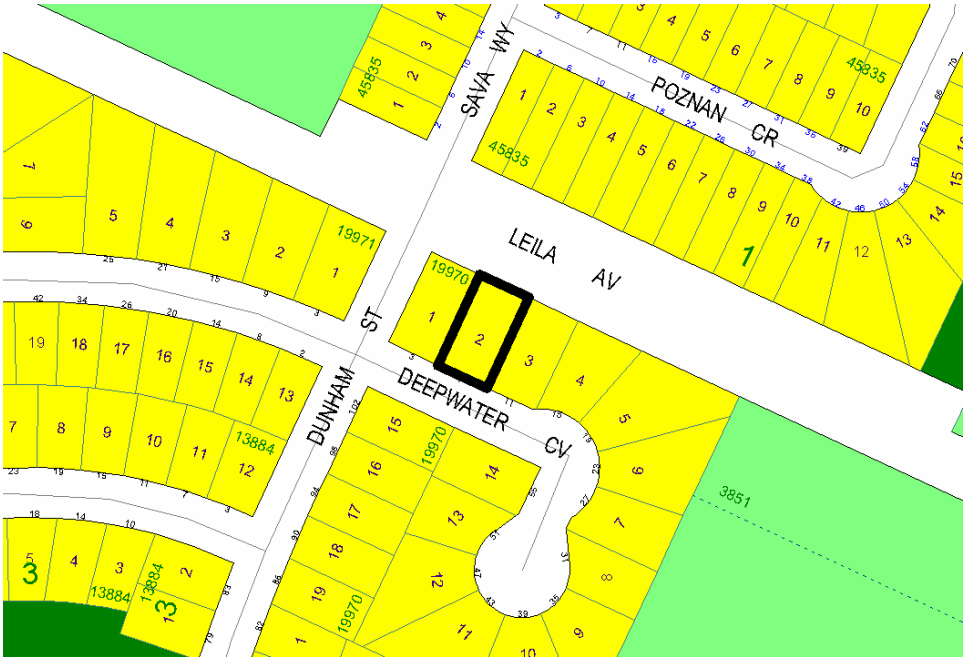

Report Summary:

- **The proposed use is compatible with the area**
- **The proposed use will not have an adverse effect upon adjacent properties**
- **The Planning and Land Use Division recommends that the Zoning Agreement be amended**

Site Description

The subject property, which is zoned "R1-5.5" Residential single family, is located on Deepwater Cove, and baking onto the future Lelia Ave, in the Dufferin neighbourhood of the Mynarski ward.

North: Single Family Residential zoned "R1-4"
South: Single Family Residential zoned "R1-5.5"
East: Single Family Residential zoned "R1-5.5" and Agricultural land zoned "A.5"
West: Single Family Residential zoned "R1-5.5"

Background

The subject property was rezoned in 1985 under file number DASZ 26/85. Pursuant to that application, a zoning agreement was attached as a caveat to several properties that are now described as numbers 3 to 19 Deepwater Cove. The current ZAA only applies to 7 Deepwater Cove.

This zoning agreement included a provision which required a minimum rear yard of (45) forty-five feet. This provision related to traffic noise attenuation in anticipation of Leila Avenue being constructed as a (4) four lane roadway. The provision was added at the request of the Public Works department.

Description of the Proposed Development

At this time, the applicant wishes to attach a (3) three season sunroom to the existing dwelling at 7 Deepwater Cove. The rear yard to the sunroom will be approximately (34) thirty-four feet instead of (45) forty-five feet.

Analysis

The only concern raised by the Division is the effect of noise on the residents of the dwelling after the construction of Leila Ave. Noise attenuation is normally provided for habitable rooms such as bedrooms, living room, etc. It was questioned whether a 3 season sunroom was considered a habitable room and if it was then it would require noise attenuation. It was concluded that a 3 season sunroom was a semi-outdoor recreation space similar to a roofed deck or verandah and could encroach into the special yard.

Further to this, consultation was undertaken with Public Works (as the special yard requirement was in response to a memo from their department) and they have no objection to the proposed encroachment for the purpose of installing a sunroom.

The clause shall be amended so that it refers only to the lot which was advertised and not every lot which backs onto Leila Avenue. Consultation was undertaken with public works in respect to 7 Deepwater only.

Recommendation

The Planning and Land Use Division recommends approval for the following reasons:

- **Adverse effects from future traffic noise is anticipated to be minimal.**
- **The proposed use is compatible with the area**
- **The proposed use will not have an adverse effect upon adjacent properties**

Recommended Conditions of Approval

1. That Zoning Agreement under File DASZ 26/85 dated February 5, 1986, in respect to Lot 2 on Plan 19970 be amended as follows:

    A. That, Clause 2 be replaced with “The principal building located on the lot which backs onto Leila Avenue shall have a minimum rear yard of thirty-four (34) feet.”

2. That the City Solicitor/Manager of Legal Services be requested to prepare the necessary Amending Agreement to Zoning Agreement DASZ 26/85 as approved in aforesaid Recommendation 1.

3. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

4. That the City Solicitor/Manager of Legal Services be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.
