Report

REASON FOR THE REPORT:

All street and lane closings require the consideration of the Community Committee.

HISTORY:

The Real Estate Division of the Planning, Property and Development Department has applied to close the portions of Plato Street so identified on the attached Misc. Plan No.12459/7.

The closing of Plato Street north of Lee Boulevard was approved by Council in May of 2005 under Application No. DAC 5/2005. The planned disposition of the closed street didn't take place and the Real Estate Division proposes to sell the land shown as Parcel A on the drawing to the adjoining property owner, to market the land shown as Parcel B on the drawing as a residential lot, and to leave the remaining sections of Plato open. The portion of Plato Street between Parcels A and B will contain future infrastructure services (wastewater and land drainage sewer). The owners of the land adjacent to the triangular section of portion of Plato east of Parcel B have declined to purchase the property. The Department would have had to pay approximately $5000 in local improvement charges if it closed this portion of the street.

The portion of Plato Street south of Lee Boulevard will be incorporated into the City lands to the west. These lands will then be subdivided under Application No. DASSF 548/2006 and the five lots will be offered for sale. The portion of Plato to remain open is required by the owners of No. 1066 Lee for access to their property.

DISCUSSION:

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the closing. The Public Works Department has advised that it will be necessary to construct a lane roadway in the right-of-way on the south side of Lee Boulevard as determined by and to the satisfaction of the Director of Public Works.

Easements

No easements are required for City of Winnipeg services. Manitoba Hydro and Centra Gas will require easements for their plants in the street. No permanent structures will be allowed in these easement areas.

Local Improvements

The Administration, Revenue and Local Improvement Section of the Corporate Finance Department advises that Plato Street is within the Fairfield Park Local Improvement District boundary; specifically in "Stage IV".

The estimated assessable frontage feet that is applicable to these properties are as follows:

Lot 5: 45.5 feet
Parcel A: 5 feet
Parcel B: 41.3 feet

These properties will all be subject to the cost of all the stages (ie. Pond Stage, Stage I, Stage II, Stage III & Stage IV) as advertised in the Winnipeg Free Press on September 2, 2003.

Lot line connections will also be applicable at an estimated cost of $3,500 per lot line connection.

Transfer of Jurisdiction Over Public Rights-of-Way

The street must be legally closed before it may be sold. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
