RE: HISTORICAL BUILDINGS BY-LAW
NO. 1474/77 AS AMENDED

The Historical Buildings Committee recommends that the Business Block, 38 – 44 1/2 Albert Street not be delisted from the Buildings Conservation List.

The Historical Buildings Committee was advised on February 21, 2008 that the owner of the property, Globe General Agencies, requests that this property be delisted so that they may proceed with the demolition and redevelopment of the site.

The Committee evaluated this property on December 15, 2005 at the request of Imperial Parking Ltd. who is acting on behalf of Globe General Agencies, who in turn represent the owners. It has been the intent of Globe General Agencies to demolish these structures to establish a surface parking lot with a new curb cut on Albert Street. Most recently the owners of the subject property have had discussions with the owners of the St. Charles Hotel, (corner of Albert Street and Notre Dame Avenue) as the planned redevelopment of that hotel could tie into the demolition of 38-44 ½ Albert. The proposal is to construct a one-storey addition and outdoor patio on the north side of the under-utilized hotel, with additional leased parking spaces for the hotel and the possibility of an interpretive feature on the site of the demolished buildings.

The Historical Buildings Committee evaluated the buildings at 38 to 44 ½ Albert Street and recommended they be listed as Grade III Historical Buildings for the following reasons:

- The buildings at 38 to 44 ½ Albert Street include portions of a dwelling that was built in 1878, which makes it the second oldest building in downtown Winnipeg after Upper Fort Garry Gate;
- This portion of Albert Street was a residential district in the 1870s and this dwelling is the only surviving example of this use;
- The designation of the Exchange District by the Government of Canada as a National Historic Site in 1997 places a serious responsibility on the City of Winnipeg to make

every effort to keep all significant and contributing structures protected and intact for all Canadians;
- The buildings at 38 to 44 ½ Albert Street are an integral part of a significant streetscape that provides continuity and character to the Exchange District; and
- The Exchange District has been recognized by the international film industry.

On January 24, 2007 City Council listed 38 to 44 ½ Albert Street on the Buildings Conservation List with Grade III status.

This complex is part of a significant streetscape that provides continuity and character to the Exchange District, a National Historic Site that is an asset for all Canadians. The demolition of this property, and subsequent replacement with surface parking would detract from the City's investments in the surrounding properties. The City's aim is to maintain a visually appealing and consistent environment that has been recognized by the international film industry.

In 2000, all three levels of government signed the Exchange District National Historic Site of Canada Commemorative Integrity Statement (CIS). It is a planning document that is to be considered when reviewing proposals within the Exchange District. The period of national significance that is represented in the District is from 1880 – 1913, the era that any decision-making should accurately reflect.

The CIS suggests that decisions and actions concerning individual buildings and streetscapes respect historic and architectural values, as well as their contribution to the streetscape and the district as a whole. The CIS notes that when characteristic features such as continuous edge, density, scale and the particular fabric of the streetscape are not maintained and protected that integrity is impaired. New development is expected to be compatible with historic styles, sizes, forms, materials and placement of the buildings that give the streetscapes their sense of time and place.

Any redevelopment of 38 to 44 ½ Albert Street which includes a new vehicular access allowance is inconsistent with the principles of the CIS and would degrade the quality of the historic streetscape. The uninterrupted boundary along Albert Street, which is both historically accurate and conducive to the pedestrian environment, would be destroyed.

The Historical Buildings Committee recommends that 38-44$^{1/2}$ Albert Street not be delisted.

Respectfully submitted,

Councillor J. Gerbasi
