Report

REASON FOR THE REPORT:
Under the City Organization By-law No. 7100/97, the Standing Policy Committee on Property and Development is responsible for planning and land use matters in the city, outside the downtown, including the Winnipeg Zoning By-law No. 200/2006.

HISTORY:
On December 19, 2007 Council passed Winnipeg Zoning By-law No. 200/2006, which came into force on March 1, 2008.

DISCUSSION:
The Planning Property and Development Department is proposing an omnibus amendment to correct several minor errors and omissions in the text and maps to the Zoning By-law noted during daily use of the by-law since it was adopted late last year. The proposed amendments can be grouped into 4 major categories:

1. Typographical errors – words spelled incorrectly, American versus Canadian spelling, word spacing, and punctuation errors.

2. Incorrect references and substitutions – errors in cross-referencing sections, incorrect grammar or cases where additional words are required to ensure consistent interpretation of the by-law.

3. Minor amendments to clarify intent – minor items that were missed or overlooked that will clarify intent and improve application and understanding of the by-law.

4. Zoning map errors – corrections to the zoning maps for 13 sites to recognize errors made in the mapping conversion process or in applying the Mapping Rules approved by Council.

The proposed amendments are listed in Attachment "A".

Under section 276 of The City of Winnipeg Charter, the City may amend a zoning by-law without giving notice of a hearing in respect of the proposed amendment, holding a hearing or receiving a report from a hearing body where it considers that the proposed amendment is to correct an error or omission and does not prejudice the rights of any person. The proposed amendments are not considered substantive and have no policy impacts. Therefore, the Public Service recommends that the Winnipeg Zoning By-law No. 200/2006 be amended according to that process. However, as a courtesy, individual property owners have been notified of the proposed corrections to the zoning maps.

Financial Impact Statement Date: June 11, 2008

Project Name:

DAZ 219/2008 – Correction of Errors and Omissions in Winnipeg Zoning By-law No. 200/2006

COMMENTS:

The recommendation included in this report is that Winnipeg Zoning By-law No. 200/2006 be amended to correct errors and omissions in the text and zoning maps as outlined in Attachment "A". There are no financial implications associated with this recommendation.
