Report date: **September 17, 2008**

COMMUNITY COMMITTEE RECOMMENDATION:

On September 16, 2008, the Assiniboia Community Committee concurred in the recommendation of the Winnipeg Public Service and recommends to the Standing Policy Committee on Property and Development that the application for zoning agreement amendment under File ZAA 14/2008, not be proceeded with.

The Assiniboia Community Committee provided the following supporting reasons for its recommendation:

1. Increased traffic, density and local improvement costs would affect everybody.

2. The zoning agreement states that people would need to have fifty (50) foot side yards for their septic fields.

3. The when the property was rezoned the intention was that the five (5) acre lots never be split.

4. Several houses have already been built in accordance with the requirements of the zoning agreement.

Background

- **DASSF 526/2002 c/r DAV 364/2002/D**
  - 12 – 2.5 acres lots, Rejected
  - Appeal withdrawn

- **DASZ 1/2003 c/r DAV 20/2003/D**

2003

- 21 – 5 acres lots, Rezoning to 'RR2' Rural Res., Approved w/ Conditions
- Lot sizes restricted to 5 acres
- Plan Approval for Driveway and House locations

Description of the Proposed Development
The applicant wishes to amend the Zoning Agreement for his lot only to allow its subdivision into two 2.5 acre lots. If the application is approved he will proceed with a subdivision application.

Analysis
In 2002 a subdivision application was considered for this general area along the east side of McCreary Road. The proposal to create twelve 2.5-acre lots was denied by the Assiniboia Community Committee. The concern was regarding the increased density, additional traffic and potential local improvement requirements would negatively impact the adjacent Fort Whyte Alive facility and the existing residences established along the west side of McCreary Road.

A subsequent application, DASZ 1/2003 was approved by City Council in March 2003 allowing the creation of twenty-one 5-acre lots along the east side of McCreary Road. The Assiniboia Community Committee felt that the larger 5 acre lots were acceptable based on the discussion, input and knowledge garnered from the previous application discussed above.

A Zoning Agreement was entered into outlining the developer's obligations including lot size restrictions that the Assiniboia Community Committee felt were appropriate to the proposal.

Condition #2 in the Zoning Agreement restricts lots 1 – 11 and 13 – 21 of the subdivision to a minimum of 5 acres in size. Condition #3 requires that plans showing the location of the proposed house and driveway be submitted and approved by the Director of Planning Property and Development prior to the issuance of any development permit.

Recommendation
The Planning and Land Use Division recommend denial for the following reasons:

- The previous 2.5 acre lot subdivision for this area was denied based on density, traffic, adjacent property owner concerns,
- The creation of the subject site was based on maintaining the 5-acre minimum lot size,
- Several of the adjacent 5-acre lots have been built on as per the Zoning Agreement conditions, locating the house in the middle of the lot preventing any future subdivision.
