On November 20, 2007, the City Clerk received a *Petition "For"* from Mr. Gilbert Rowan of D-388 Desautels Street.

On December 4, 2007, the Coordinator of Tax Accounting and Administration submitted a Report to the Riel Community Committee recommending that the proposed undertaking of this local improvement project may be advertised in March 2008.

On February 25, 2008, the Riel Community Committee concurred in the recommendation of the Winnipeg Public Service and authorized the Administration to advertise in March 2008 this proposed local improvement project.

Subsequent to the advertisement, a registered property owner on Deschambault Street requested an official *"Objection"* form.

In accordance with Section 125 of *The City of Winnipeg Charter*, it was ascertained and certified by the Manager of Taxation and Finance that the signatures obtained from the benefiting registered property owners on the official *"Objection"* form represents ***50.67%*** of the total assessable frontage as indicated below:

Total Assessable Frontage (includes "flankage")	1,283.3 feet
Objectors Represent (includes "flankage")	650.3 feet
Percentage Signed	50.67*%*

However, the total assessable frontage includes a flankage allowance of 145.1 feet and therefore, by excluding the "flankage" amount from the total assessable frontage, the signatures obtained from the benefiting property owners would then represent ***57.13%*** of the total assessable frontage as indicated below:

Total Assessable Frontage (includes "flankage")	1,283.3 feet
Less: Flankage	(145.1) feet
Total Assessable Frontage (excluding "flankage")	1,138.2 feet
Objectors Represent	650.3 feet
Percentage Signed	***57.13%***

The total cost of the project is estimated to be $254,000 of which 87.38% is to be recovered from the registered property owners.

City's Administration Recommendation: The proposed undertaking of this Local Improvement project proceed as part of the 2008 Local Improvement Program which is funded through the Local Improvement float, since the Objector was not successful in attaining the required 60% of the total assessable frontage.
